# APRESENTAÇÃO

Olá!

Sou o professor Rodrigo Perni e, com imensa satisfação, serei o seu analista do Passo Estratégico!

Para que você conheça um pouco sobre mim segue um resumo de nossa experiência profissional, acadêmica e como concurseiro:

*Rodrigo Perni*

**Auditor – Fiscal da Receita Federal do Brasil;*

** Coach do Estratégia Concursos;*

** Responsável pela elaboração e análise estatística do Passo Estratégico de Arquivologia;*

** Formado em Administração de Empresas;*

** Cursando o 4º período do curso de Direito e*

** Aprovado no concurso do ano de 2005, na 21ª posição na 2ª Região Fiscal no concurso para Auditor-Fiscal da Receita Federal do Brasil.*

Estamos extremamente felizes de termos a oportunidade de trabalhar na equipe do "Passo", porque tenho convicção de que nossos relatórios e simulados proporcionarão uma preparação diferenciada aos nossos alunos!

11225354498 - Maria Vitória Gonçalves Vieira

# O QUE É O PASSO ESTRATÉGICO?

O Passo Estratégico é um material escrito e enxuto que possui dois objetivos principais:

a) orientar revisões eficientes;

b) destacar os pontos mais importantes e prováveis de serem cobrados em prova.

Assim, o Passo Estratégico pode ser utilizado tanto para turbinar as revisões dos alunos mais adiantados nas matérias, quanto para maximizar o resultado na reta final de estudos por parte dos alunos que não conseguirão estudar todo o conteúdo do curso regular.

Em ambas as formas de utilização, como regra, o aluno precisa utilizar o Passo Estratégico em conjunto com um curso regular completo.

Isso porque nossa didática é direcionada ao aluno que já possui uma base do conteúdo.

Assim, se você vai utilizar o Passo Estratégico:

a) como método de revisão, você precisará de seu curso completo para realizar as leituras indicadas no próprio Passo Estratégico, em complemento ao conteúdo entregue diretamente em nossos relatórios;

b) como material de reta final, você precisará de seu curso completo para buscar maiores esclarecimentos sobre alguns pontos do conteúdo que, em nosso relatório, foram eventualmente expostos utilizando uma didática mais avançada que a sua capacidade de compreensão, em razão do seu nível de conhecimento do assunto.

## Seu cantinho de estudos famoso!

Poste uma foto do seu cantinho de estudos nos stories do Instagram e nos marque:

*@passoestrategico*

Vamos repostar sua foto no nosso perfil para que ele fique famoso entre milhares de concurseiros!

11225354498 - Maria Vitória Gonçalves Vieira

# Análise Estatística

Inicialmente, convém destacar os percentuais de incidência das questões de Inglês nas provas elaboradas pela banca FGV

Lembrando, quanto maior o percentual de cobrança de um dado assunto, maior sua importância:

| Assunto | Grau de incidência em concursos anteriores elaborados pela FGV |
|---|---|
| *Interpretação de Textos (compreensão)* | 45% |
| *Vocabulário e Tradução (inglês)* | 35% |
| *Gramática (inglês)* | 20% |

11225354498 - Maria Vitória Gonçalves Vieira

# Roteiro de revisão e pontos do assunto que merecem destaque

*A ideia desta seção é apresentar um roteiro para que você realize uma revisão completa do assunto e, ao mesmo tempo, destacar aspectos do conteúdo que merecem atenção.*

*ATENÇÃO!!! Serão disponibilizados exercícios das principais bancas que elaboram concursos públicos nos cadernos de questões ao final do curso.*

1 - Atenção as principais funções da técnica **Skimming**:

- ESTRATÉGIA DE LEITURA DE EXAMINAÇÃO
- CAPTAR IDEIAS PRINCIPAIS
- OBSERVAÇÃO GERAL SEM DETER-SE EM UM PONTO ESPECÍFICO
- RECONHECER DICAS SOBRE O ASSUNTO
- NÃO LER TEXTO TODO E SIM, EXPLORAR A LEITURA EM GERAL
- INVESTIGAÇÃO DA IDEIA CENTRAL DO TEXTO

2 - Assimile as principais funções da técnica **Scanning**:

- ESTRATÉGIA DE LEITURA SELETIVA
- FAZER A "VARREDURA" DO TEXTO EM QUESTÃO

11225354498 - Maria Vitória Gonçalves Vieira

• ATENTAR-SE EM PALAVRAS, FRASES E TERMOS IMPORTANTES
• BUSCAR INFORMAÇÕES OBJETIVAMENTE
• NÃO LER TEXTO TODO E SIM, ENCONTRAR RESPOSTAS ESPECÍFICAS À PERGUNTA
• CONECTAR PALAVRAS PROCURADAS COM O ENUNCIADO DA PERGUNTA

3 - Visamos, por meio do **Scanning** e **Skimming**, ler um grande volume de informação com prática, observar o texto rapidamente, detectar o assunto e localizar informações específicas.

4 - Vamos adiantar o nosso estudo testando as técnicas de **Skimming** e **Scanning**:
Leia os quadrinhos. As expressões faciais. As reações. Os movimentos. Tudo são indicadores do assunto. É primordial que você leia a figura ou um texto como se estivesse desvendando um mistério, decifrando um código.
No quadrinho em questão, quando você vê a palavra "beer" no primeiro quadrinho, pronunciada pela esposa, percebe que ela não está muito satisfeita provavelmente porque Hagar está bêbado (percebemos pelas estrelinhas ao redor da cabeça dele).
Como resposta, Hagar pronunciou números indicando que não sabe quantas cervejas bebeu. A expressão que contém palavras cognatas, "serious problem", que a mulher dele diz, mostra que ela está irritada, pois aponta o dedo, demonstrando nervosismo, raiva e fúria.
Ele, "sem noção" do que diz e, perceptivelmente alcoolizado (inclusive com as estrelinhas ao redor da cabeça), responde com as palavras "math tutor", que podemos deduzir uma manifestação de que ele revela não saber matemática e, assim, precisa de um tutor, um professor de matemática.

11225354498 - Maria Vitória Gonçalves Vieira

5 - Assimile as **principais funções** da **técnica Interpretação** de Texto:

- "Ler" as expressões faciais dos personagens.
- "Ler" os movimentos dos personagens.
- "Ler" os detalhes ao redor dos textos.
- "Ler" em conexão ao que você sabe, seu background.
- "Ler" as palavras essenciais: palavras-chave.
- "Ler" o ambiente/local apresentado na questão.
- "Ler" termos em destaque, como negrito, itálico e CAIXA ALTA.
- "Ler" as referências, tais como datas e fonte.
- "Ler" e abusar das palavras cognatas – grandes facilitadoras.
- "Ler" e identificar os falsos cognatos disfarçados – estudá–los.
- "Ler" o título, os enunciados, os comandos – achar o que se pede.
- "Ler" e fazer deduções relacionadas ao assunto.

6 - Para dar maior celeridade na dinâmica de resoluções de questões, dê importância às **palavras peculiares,** aquelas que indicam o assunto e/ou o que precisa saber sobre tal assunto. Procure expandir o seu vocabulário para não causar atrasos em sua leitura.

7 - Decore os **falsos Cognatos** e os seus significados:

| | |
|---|---|
| Abstract – resumo | Abstrato – conceptual |

11225354498 - Maria Vitória Gonçalves Vieira

| | |
|---|---|
| Actually – na verdade | Atualmente – These days, nowadays |
| Accent – sotaque | Assento – seat |
| Adept– especialista, bom conhecedor | Adepto – supporter |
| Agenda – pauta diária | Agenda – appointment book |
| Alias – pseudônimo | Aliás – By the way |
| Alms – esmola | Almas – souls |
| Animus – hostilidade, inimizade | Animado – Excited |
| Annotate – observar | Anotar – to take note, to write down |
| Application – registro, inscrição | Aplicação – investment |
| Appointment – compromisso profissional | Apontamento – note |
| Appreciation – gratidão, reconhecimento | Apreciação – judgement |
| Argument (n) – discussão | Argumento – reasoning, point |
| Arm – braço | Arma – gun |
| Army – exército | Arma – gun |
| Assist – ajudar, dar assistência | Assistir – Watch |
| Attend – assistir, participar de | Atender – to help; to answer; to see |
| Audience – plateia, público | Audiencia – court appearance |
| Balcony – sacada | Balcão – counter |
| Baton – cassetete | Batom – lipstick |
| Barracks – quartel | Barraca – tent |
| Bond – vínculo, elo | Bonde – trolley car |
| Bonnet – touca, capô de carro | Boné – cap |
| Braces – aparelho dental | Braços – arms |
| Candid – sincero | Cândido – innocent, naive |
| Carton – caixa de papelão | Cartão – card |
| Cartoon – desenho animado | Cartão – card |
| Chef – cozinheiro, mestre cuca | Chefe – boss |

11225354498 - Maria Vitória Gonçalves Vieira

| | |
|---|---|
| Cigar – charuto | Cigarro – cigarette |
| College – faculdade | Colégio – school |
| Commodity – artigo, mercadoria | Comodidade – comfort |
| Compromise – entrar em acordo | Compromisso – appointment; date |
| Content – conteúdo | Contente – glad, happy |
| Convict – réu | Convicto – Sure |
| Costume – fantasia (roupa) | Costume – custom, habit |
| Cup – xícara | Copo – glass |
| Curse – maldição, xingamento. | Curso – course |
| Dessert – sobremesa | Deserto – desert |
| Data – dados | Data – date |
| Dependable – confiável | Dependente – Dependant |
| Devolve – transferir | Devolver – return, give back, refund |
| Discussion – debate, opiniões | Discussão – argument |
| Diversion – desvio, trajeto | Diversão – fun |
| Educated – bom nível de escolaridade | Educado – well–mannered, polite |
| Enroll – registrar-se inscrever-se | Enrolar – to roll |
| Expiation – penitência, castigo | Espiar – To spy |
| Exquisite – belo, refinado | Esquisito – strange, odd |
| Expert – especialista | Esperto – clever, smart |
| Fabric – tecido | Fábrica – factory |
| Fate – destino | Fato – fact |
| File – arquivo | Fila – line |
| Gracious – benéfico | Gracioso – graceful |
| Gratuity – gorjeta | Gratuito – For free, gratuit |
| Gravy – molho, caldo | Grave – Serious |
| Grip – agarrar firme | Gripe – cold, flu |

11225354498 - Maria Vitória Gonçalves Vieira

| | |
|---|---|
| Heydey – apogeu | Ei, dia – Hey day |
| Hazard – risco, arriscar | Azar – bad luck |
| Hostage – refém | Hóspede – guest |
| Idiom – expressão idiomática | Idioma – language |
| Injury – ferida, ferimento | Injuria – insult, offence |
| Intend – pretender, ter intenção | Entender – understand |
| Intoxication – embriaguez, drogas | Intoxicação – poisoning |
| Jest – zombo, brincadeira | Gesto – gesture |
| Lecture – palestra, aula | Leitura – reading |
| Legend – lenda | Legenda – subtitle |
| Library – biblioteca | Livraria – book shop |
| Lunch – almoço | Lanche – snack |
| Luxury – luxo | Luxúria – lust |
| Magazine – revista | Magazine – department store |
| Mayor – prefeito | Maior – bigger |
| Mate – colega, companheiro | Matar – to kill |
| Moisture – umidade | Mistura – mix, mixture |
| Notice – notar, perceber-se | Notícia – news |
| Novel – romance | Novela – soap opera |
| Office – escritório | Official – officer |
| Oration – discurso (formal) | Oração – prayer |
| Orchard – pomar | Orquídea – Orchid |
| Parents – pais | Parentes – relatives |
| Pasta – massa, macarrão | Pasta – briefcase |
| Physician – médico | Físico – physicist |
| Phony – impostor | Telephone – Phone, telephone |
| Policy – Apólice, política (ideal político) | Polícia – Police |

11225354498 - Maria Vitória Gonçalves Vieira

| | |
|---|---|
| Pork – carne de porco | Porco – pig |
| Port – porto | Porta – door |
| Prate – tagarelar, falar muito | Prato – plate, dish |
| Preservative – conservante | Preservative – condom |
| Pretend – fingir | Pretender – to intend, to plan |
| Procure – conseguir, adquirir | Procurar – to look for |
| Pull – puxar | Pular – to jump |
| Push – empurrar | Puxar – to pull |
| Realize – perceber, notar | Realizar – make come true, to carry out |
| Recipient – recebedor | Recipiente – container |
| Reclaim – recuperar | Reclamar – complain |
| Record – gravar | Recordar, lembrar – remember, remind |
| Refrigerant – uma substância | Refrigerante – soft drink, soda |
| Resume – retomar, reiniciar | Resumir – sumarize |
| Retired – aposentado | Retirado – removed |
| Senior – idoso | Senhor – gentleman, sir |
| Sensible – sensato | Sensível – sensitive |
| Service – atendimento | Serviço – job |
| Sort – tipo, espécie | Sorte – luck, fate |
| Stranger – desconhecido | Estrangeiro – foreigner |
| Stupid – burro | Estúpido – impolite, rude |
| Supper – jantar, ceia | Super – super |
| Support – apoiar | Suportar (tolerar) – can stand |
| Sympathetic – compreensivo | Simpático – nice |
| Tax – imposto | Taxa – rate; fee |
| Tent – barraca | Tentar – to try |
| Thicket – moita, mato fechado | Ticket, bilhete – ticket |

11225354498 - Maria Vitória Gonçalves Vieira

| | |
|---|---|
| Toss – arremessar | Tosse – cough |
| Turn – vez, volta, virar, girar | Turno – shift; round |
| Ultimately – em última análise | Ultimamente – Lately |
| Valorous – corajoso, destemido | Valoroso, de valor, valuable |
| Vicious – defeituoso, impuro | Viciado – addicted |
| Vine – videira | Vinho – wine |

# APOSTA ESTRATÉGICA

*A ideia desta seção é apresentar os pontos do conteúdo que mais possuem chances de serem cobrados em prova, considerando o histórico de questões da banca em provas de nível semelhante à nossa.*

Mas o que focar dentro dos temas abordados nessa aula? Qual é a aposta estratégica?

1 - Decore os **falsos Cognatos** e os seus significados:

| | |
|---|---|
| Abstract – resumo | Abstrato – conceptual |
| Actually – na verdade | Atualmente – These days, nowadays |
| Accent – sotaque | Assento – seat |
| Adept– especialista, bom conhecedor | Adepto – supporter |

# QUESTÕES ESTRATÉGICAS

*Nesta seção, apresentamos e comentamos uma amostra de questões objetivas selecionadas estrategicamente: são questões com nível de dificuldade semelhante ao que você deve esperar para a sua prova e que, em conjunto, abordam os principais pontos do assunto.*

*A ideia, aqui, não é que você fixe o conteúdo por meio de uma bateria extensa de questões, mas que você faça uma boa revisão global do assunto a partir de, relativamente, poucas questões.*

Read Text and answer the question that follow it.

Text

'It's dangerous work': new generation of Indigenous activists battle to save the Amazon

The medicine man flashed a mischievous grin as he dabbed his warriors' eyeballs with a feather soaked in malagueta pepper and watched them grimace in pain. "They're going into battle and this will protect them," José Delfonso Pereira said as he advanced on his next target with a jam jar of his chilli potion.

"It hurts and it burns," the Macuxi shaman admitted. "But it will help them see more clearly and stop them falling ill."

It was a crisp August morning and a dozen members of an Indigenous self-defence team had assembled in the hillside village of Tabatinga to receive Pereira's blessing before launching their latest mission into one of the Amazon's most secluded corners, near Brazil's border with Guyana and Venezuela.

Some of the men clutched bloodwood truncheons as they prepared to journey down the Maú River in search of illegal miners; others held bows and arrows adorned with the black feathers of curassow birds. Marco Antônio Silva Batista carried a drone.

"If I die, it will be for a good cause – ensuring our territory is preserved for future generations," said the 20-year-old activistjournalist, whose ability to spy on environmental criminals from above

11225354498 - Maria Vitória Gonçalves Vieira

has made him a key member of GPVTI, an Indigenous patrol group in the Brazilian state of Roraima.

Batista, who belongs to South America's Macuxi people, is part of a new generation of Indigenous journalists helping chronicle an age-old battle against outside aggression. For centuries, non-Indigenous writers and reporters have flocked to the rainforest region to tell their version of that ancestral fight for survival. Now, a growing cohort of Indigenous communicators are telling their own stories, providing first-hand dispatches from some of the Amazon's most inaccessible and under-reported corners.

"It's dangerous work and we suffer a lot when we're out in the field," said Batista, one of about 26,000 inhabitants of Raposa Serra do Sol, Brazil's second most populous Indigenous territory. "But it really gives me strength because I'm showing the reality of our lives to the world." (…)

(Adapted from https://www.theguardian.com/environment/2023/sep/03/itsdangerous-work-new-generation-of-indigenous-activists-battle-to-save-the-amazon)

The two first sentences in the 4th paragraph indicate the men anticipate a(n)

A) feast.

B) truce.

C) retreat.

D) skirmish.

E) entreaty.

Comentários:

Vamos analisar as opções:

A) feast. (festa) - Não é consistente com o contexto de preparação para uma ação.

B) truce. (trégua) - Isso implicaria em um acordo de paz, o que é contraditório ao que está sendo descrito.

C) retreat. (retirada) - Isso sugere uma fuga ou recuo, o que não está de acordo com a ideia de ataque.

D) skirmish. (conflito) - Refere-se a um confronto ou briga, que se alinha com a ideia de se preparar para um combate contra invasores.

E) entreaty. (apelo) - Isso implica em um pedido, o que não está alinhado com a preparação para uma missão de defesa.

A resposta correta é D) skirmish, pois o contexto sugere que os homens estão se preparando para um conflito com os mineradores ilegais.

11225354498 - Maria Vitória Gonçalves Vieira

Comentário:

Esse trecho destaca a determinação e o bravura dos ativistas indígenas em proteger seu território. A preparação para um "skirmish" evidencia a seriedade da situação e o compromisso dos indígenas em defender suas terras e suas vidas. A menção de armas tradicionais, como truncheons e arcos e flechas, reforça a conexão cultural e histórica dos indígenas com a luta por seus direitos e sua terra. Além disso, o ativismo e o papel de comunicação de figuras como Marco Antônio Silva Batista ilustram uma mudança na narrativa, permitindo que os indígenas contem suas próprias histórias e experiências.

Gabarito Letra D

Text

'It's dangerous work': new generation of Indigenous activists battle to save the Amazon

The medicine man flashed a mischievous grin as he dabbed his warriors' eyeballs with a feather soaked in malagueta pepper and watched them grimace in pain. "They're going into battle and this will protect them," José Delfonso Pereira said as he advanced on his next target with a jam jar of his chilli potion.

"It hurts and it burns," the Macuxi shaman admitted. "But it will help them see more clearly and stop them falling ill."

It was a crisp August morning and a dozen members of an Indigenous self-defence team had assembled in the hillside village of Tabatinga to receive Pereira's blessing before launching their latest mission into one of the Amazon's most secluded corners, near Brazil's border with Guyana and Venezuela.

Some of the men clutched bloodwood truncheons as they prepared to journey down the Maú River in search of illegal miners; others held bows and arrows adorned with the black feathers of curassow birds. Marco Antônio Silva Batista carried a drone.

"If I die, it will be for a good cause – ensuring our territory is preserved for future generations," said the 20-year-old activistjournalist, whose ability to spy on environmental criminals from above has made him a key member of GPVTI, an Indigenous patrol group in the Brazilian state of Roraima.

Batista, who belongs to South America's Macuxi people, is part of a new generation of Indigenous journalists helping chronicle an age-old battle against outside aggression. For centuries, non-Indigenous writers and reporters have flocked to the rainforest region to tell their version of that ancestral fight for survival. Now, a growing cohort of Indigenous communicators are telling

11225354498 - Maria Vitória Gonçalves Vieira

their own stories, providing first-hand dispatches from some of the Amazon's most inaccessible and under-reported corners.

"It's dangerous work and we suffer a lot when we're out in the field," said Batista, one of about 26,000 inhabitants of Raposa Serra do Sol, Brazil's second most populous Indigenous territory. "But it really gives me strength because I'm showing the reality of our lives to the world." (…)

(Adapted from https://www.theguardian.com/environment/2023/sep/03/itsdangerous-work-new-generation-of-indigenous-activists-battle-to-save-the-amazon)

In the 3rd paragraph, the August morning is described as being

A) cold, dry, and bright.

B) hot, stuffy, and hazy.

C) murky, stormy, and windy.

D) damp, muggy, and overcast.

E) sunny, cloudless, and sizzling.

Comentários:

A) cold, dry, and bright.

A escolha da palavra "crisp" implica que a manhã era fresca e clara, o que se alinha mais com a ideia de uma manhã fria e seca. A descrição não menciona calor ou umidade, portanto, as outras opções (B, C, D e E) não são adequadas. Essa nuance é importante ao interpretar o tom e a atmosfera do texto, já que a descrição da manhã contribui para a construção do cenário e da experiência dos ativistas indígenas que se preparavam para a missão.

Comentário das demais opções:

B) hot, stuffy, and hazy.
Essa opção é inconsistente com a descrição da manhã. "Hot" e "stuffy" contrariam a ideia de uma manhã "crisp", que implica frescor e clareza. "Hazy" também não se alinha, já que a palavra "crisp" sugere ar limpo e não embaçado.

C) murky, stormy, and windy.
Essa opção descreve um ambiente oposto ao que a palavra "crisp" sugere. "Murky" implica visibilidade ruim, "stormy" sugere tempestade e "windy" sugere um clima agitado, todos os quais não correspondem à ideia de uma manhã calma e fresca.

D) damp, muggy, and overcast.
Esta opção também não é compatível com a descrição. "Damp" e "muggy" referem-se a umidade e desconforto, enquanto "overcast" sugere um céu nublado. Essas características não se encaixam na ideia de uma manhã "crisp", que é mais clara e fresca.

11225354498 - Maria Vitória Gonçalves Vieira

E) sunny, cloudless, and sizzling.
Embora "sunny" e "cloudless" possam ser interpretados como características de uma manhã agradável, "sizzling" sugere calor intenso, o que contradiz a noção de uma manhã "crisp". A temperatura elevada não se alinha com a ideia de frescor que "crisp" representa.

Em resumo, as opções B, C, D e E não capturam corretamente a essência da descrição no texto, que evoca um ambiente mais fresco, claro e revigorante, conforme indicado pela palavra "crisp".

Text

'It's dangerous work': new generation of Indigenous activists battle to save the Amazon

The medicine man flashed a mischievous grin as he dabbed his warriors' eyeballs with a feather soaked in malagueta pepper and watched them grimace in pain. "They're going into battle and this will protect them," José Delfonso Pereira said as he advanced on his next target with a jam jar of his chilli potion."

It hurts and it burns," the Macuxi shaman admitted. "But it will help them see more clearly and stop them falling ill."

It was a crisp August morning and a dozen members of an Indigenous self-defence team had assembled in the hillside village of Tabatinga to receive Pereira's blessing before launching their latest mission into one of the Amazon's most secluded corners, near Brazil's border with Guyana and Venezuela.

Some of the men clutched bloodwood truncheons as they prepared to journey down the Maú River in search of illegal miners; others held bows and arrows adorned with the black feathers of curassow birds. Marco Antônio Silva Batista carried a drone. "

If I die, it will be for a good cause – ensuring our territory is preserved for future generations," said the 20-year-old activistjournalist, whose ability to spy on environmental criminals from above has made him a key member of GPVTI, an Indigenous patrol group in the Brazilian state of Roraima.

Batista, who belongs to South America's Macuxi people, is part of a new generation of Indigenous journalists helping chronicle an age-old battle against outside aggression. For centuries, non-Indigenous writers and reporters have flocked to the rainforest region to tell their version of that ancestral fight for survival. Now, a growing cohort of Indigenous communicators are telling

11225354498 - Maria Vitória Gonçalves Vieira

their own stories, providing first-hand dispatches from some of the Amazon's most inaccessible and under-reported corners.

"It's dangerous work and we suffer a lot when we're out in the field," said Batista, one of about 26,000 inhabitants of Raposa Serra do Sol, Brazil's second most populous Indigenous territory. "But it really gives me strength because I'm showing the reality of our lives to the world." (…)

(Adapted from https://www.theguardian.com/environment/2023/sep/03/itsdangerous-work-new-generation-of-indigenous-activists-battle-to-save-the-amazon)

Pereira's "next target" (1st paragraph) is

A) a bird feather.

B) his chilli potion.

C) another warrior.

D) the medicine man.

E) malagueta pepper.

Comentários:

A) a bird feather.
Esta opção não faz sentido no contexto. Embora Pereira esteja usando uma pena de pássaro para aplicar a poção, a pena em si não é o "próximo alvo".

B) his chilli potion.
Essa opção também é incoerente. A poção de pimenta é um instrumento que Pereira utiliza, não um alvo. O uso da poção é o que está sendo feito, não algo que ele está buscando.

C) another warrior.
Essa opção é a mais plausível. A frase sugere que Pereira está se preparando para tratar outro guerreiro com a poção. O contexto fala sobre os guerreiros que vão para a batalha, e ele se prepara para "avançar" sobre o próximo alvo, o que se alinha com a ideia de tratar outro membro do grupo.

D) the medicine man.
Embora Pereira seja o medicine man, essa opção não é lógica porque ele não seria seu próprio "próximo alvo".

E) malagueta pepper.
A malagueta é um ingrediente, mas não é o alvo que Pereira está buscando. A sua ação é de aplicar a poção, não de buscar a pimenta.

Resposta Correta: C) another warrior.

11225354498 - Maria Vitória Gonçalves Vieira

A opção C faz mais sentido dentro do contexto da frase e do parágrafo, onde Pereira está se preparando para aplicar a poção em seus guerreiros que estão indo para a batalha. Essa escolha reflete a dinâmica da preparação para o combate e a proteção dos membros do grupo, enfatizando a cultura e a prática ritual dos indígenas mencionados no texto. Além disso, a expressão "next target" pode ser interpretada como a próxima pessoa que receberá a bênção e a proteção antes de uma missão perigosa.

'It's dangerous work': new generation of Indigenous activists battle to save the Amazon

The medicine man flashed a mischievous grin as he dabbed his warriors' eyeballs with a feather soaked in malagueta pepper and watched them grimace in pain. "They're going into battle and this will protect them," José Delfonso Pereira said as he advanced on his next target with a jam jar of his chilli potion.

"It hurts and it burns," the Macuxi shaman admitted. "But it will help them see more clearly and stop them falling ill."

It was a crisp August morning and a dozen members of an Indigenous self-defence team had assembled in the hillside village of Tabatinga to receive Pereira's blessing before launching their latest mission into one of the Amazon's most secluded corners, near Brazil's border with Guyana and Venezuela.

Some of the men clutched bloodwood truncheons as they prepared to journey down the Maú River in search of illegal miners; others held bows and arrows adorned with the black feathers of curassow birds. Marco Antônio Silva Batista carried a drone.

"If I die, it will be for a good cause – ensuring our territory is preserved for future generations," said the 20-year-old activistjournalist, whose ability to spy on environmental criminals from above has made him a key member of GPVTI, an Indigenous patrol group in the Brazilian state of Roraima.

Batista, who belongs to South America's Macuxi people, is part of a new generation of Indigenous journalists helping chronicle an age-old battle against outside aggression. For centuries, non-Indigenous writers and reporters have flocked to the rainforest region to tell their version of that ancestral fight for survival. Now, a growing cohort of Indigenous communicators are telling their own stories, providing first-hand dispatches from some of the Amazon's most inaccessible and under-reported corners.

11225354498 - Maria Vitória Gonçalves Vieira

“It’s dangerous work and we suffer a lot when we’re out in the field,” said Batista, one of about 26,000 inhabitants of Raposa Serra do Sol, Brazil’s second most populous Indigenous territory. “But it really gives me strength because I’m showing the reality of our lives to the world.” (…)

(Adapted from https://www.theguardian.com/environment/2023/sep/03/itsdangerous-work-new-generation-of-indigenous-activists-battle-to-save-the-amazon)

When the author informs that “The medicine man flashed a mischievous grin” (1st paragraph), he implies that the shaman

A) wanted to cure the men from blindness.

B) felt guilty about having to hurt others.

C) knew he was going to be punished.

D) found his practice quite appalling.

E) was aware of what he was doing.

Comentaíros:

A) wanted to cure the men from blindness.
Essa opção não é precisa. Embora o xamã use a poção com a intenção de ajudar os guerreiros, o "sorriso travesso" não implica diretamente que ele queria curá-los da cegueira.

B) felt guilty about having to hurt others.
Essa interpretação é contrária ao que a frase sugere. Um sorriso travesso geralmente indica diversão ou prazer, não culpa.

C) knew he was going to be punished.
Não há evidências no texto que sugiram que o xamã estava ciente de que seria punido. A frase não tem conotações de punição.

D) found his practice quite appalling.
Novamente, a ideia de um "sorriso travesso" não sugere que ele achava sua prática horrível. Na verdade, um sorriso desse tipo sugere o contrário.

E) was aware of what he was doing.
Essa opção é a mais adequada. O "sorriso travesso" indica que o xamã estava ciente e, possivelmente, se divertindo com o que estava fazendo, aplicando a poção nos guerreiros como parte de um ritual.

Resposta Correta: E) was aware of what he was doing.

A escolha da letra E reflete a compreensão do estado de espírito do xamã. O "sorriso travesso" sugere que ele tem um conhecimento consciente e uma atitude até brincalhona em relação à sua prática ritualística. Esse momento destaca a relação entre os rituais de proteção e a cultura indígena, onde o uso de substâncias naturais como a pimenta é visto como uma forma de

11225354498 - Maria Vitória Gonçalves Vieira

fortificação espiritual e física. Isso também enfatiza o papel ativo do xamã na proteção da sua comunidade, mostrando que ele está engajado e comprometido com o que faz, sem qualquer sinal de arrependimento ou descontentamento.

(Adapted from
https://www.theguardian.com/environment/2023/sep/03/itsdangerous-work-new-generation-of-indigenous-activists-battle-to-save-the-amazon)

What drives the warriors mentioned in the text is their will to,

A) display their skill in boating on rivers.

B) safeguard their land from felonious acts.

C) disclose the value of traditional healing.

D) lay new boundary-stones in the Amazon.

E) show the weight of their fierce weapons.

Comentários:

A) display their skill in boating on rivers.
Essa opção não é pertinente. Embora a narrativa mencione que os guerreiros vão viajar pelo rio, o foco do texto está mais na proteção de sua terra e na defesa contra atividades ilegais do que em exibir suas habilidades de navegação.

B) safeguard their land from felonious acts.
Essa é a opção mais adequada. O texto destaca que os guerreiros estão em uma missão para "procurar por mineradores ilegais", o que claramente indica que seu principal objetivo é proteger suas terras e recursos naturais de atividades criminosas.

C) disclose the value of traditional healing.
Embora o uso de poções e práticas tradicionais seja mencionado, o foco do texto não está na divulgação do valor da cura tradicional, mas sim na luta contra as ameaças à sua terra e cultura.

D) lay new boundary-stones in the Amazon.
Essa opção sugere uma ação de delimitação territorial, que não é mencionada no texto. Os guerreiros estão mais envolvidos na defesa de suas terras do que na criação de novos marcos.

E) show the weight of their fierce weapons.
Embora os guerreiros estejam armados e preparados para a batalha, o objetivo principal deles não é exibir suas armas, mas sim proteger seus territórios de ameaças externas.

Resposta Correta: B) safeguard their land from felonious acts.

Comentário:
A escolha da letra B reflete o tema central do texto: a defesa das terras indígenas contra ações ilegais e invasivas. Os guerreiros, equipados e preparados, estão conscientes das ameaças que suas comunidades enfrentam, e sua motivação é preservar seu território e cultura. Este texto não apenas destaca a luta pela sobrevivência cultural, mas também ressalta a importância da resistência ativa contra os crimes ambientais. A nova geração de ativistas indígenas, como Batista,

11225354498 - Maria Vitória Gonçalves Vieira

está empenhada em garantir que as futuras gerações possam continuar a viver em seus lares, enfatizando a urgência e a relevância dessa luta na atualidade.

Based on Text I, mark the statements below as true (T) or false (F).

( ) Indigenous reporters have been currently keen on providing their eye-witness accounts.

( ) The patrollers put themselves in jeopardy when they undertake their fact-finding missions.

( ) The activist journalist mentioned is incognizant of modern surveillance technology.

The statements are, respectively

A) T – T – F.

B) T – F – F.

C) T – F – T.

D) F – F – T.

E) F – T – F.

Comentários:

Análise das Afirmativas:

1. Indigenous reporters have been currently keen on providing their eye-witness accounts.

Análise: O texto afirma que uma nova geração de jornalistas indígenas está documentando sua luta, o que indica que eles estão, de fato, interessados em fornecer relatos em primeira mão sobre a situação na Amazônia.

Avaliação: Verdadeiro (T)

2. The patrollers put themselves in jeopardy when they undertake their fact-finding missions.

Análise: O texto menciona que "é um trabalho perigoso" e que os ativistas sofrem quando estão em campo, o que claramente indica que eles se colocam em risco ao realizar suas missões.

Avaliação: Verdadeiro (T)

3. The activist journalist mentioned is incognizant of modern surveillance technology.

Análise: Marco Antônio Silva Batista é descrito como um membro-chave do grupo de patrulha indígena, que utiliza um drone para vigiar criminosos ambientais. Isso demonstra que ele está ciente e utiliza tecnologia de vigilância moderna.

Avaliação: Falso (F)

11225354498 - Maria Vitória Gonçalves Vieira

Resumo das Afirmativas:

- 1ª afirmativa: T
- 2ª afirmativa: T
- 3ª afirmativa: F

Resposta Correta:

A) T – T – F.

Essa questão ilustra bem a nova dinâmica na luta indígena pela preservação de suas terras. Os jornalistas indígenas, como Batista, não apenas enfrentam riscos significativos ao documentar e combater a destruição da Amazônia, mas também utilizam tecnologias modernas para fortalecer suas defesas. A inclusão de suas próprias vozes nas narrativas sobre a Amazônia é crucial, pois proporciona uma perspectiva autêntica e direta das lutas e realidades enfrentadas por suas comunidades. Essa mudança é vital para a valorização da cultura indígena e para a luta pela justiça ambiental.

Text

Boy cries Wolf

After astonishing breakthroughs in artificial intelligence, many people worry that they will end up on the economic scrapheap. Global Google searches for "is my job safe?" have doubled in recent months, as people fear that they will be replaced with large language models (LLMS). Some evidence suggests that widespread disruption is coming. In a recent paper Tyna Eloundou of OpenAI and colleagues say that "around 80% of the US workforce could have at least 10% of their work tasks affected by the introduction of LLMS". Another paper suggests that legal services, accountancy and travel agencies will face unprecedented upheaval.

Economists, however, tend to enjoy making predictions about automation more than they enjoy testing them. In the early 2010s many of them loudly predicted that robots would kill jobs by the millions, only to fall silent when employment rates across the rich world rose to all-time highs. Few of the doom-mongers have a good explanation for why countries with the highest rates of tech usage around the globe, such as Japan, Singapore and South Korea, consistently have among the lowest rates of unemployment.

Here we introduce our first attempt at tracking AI's impact on jobs. Using American data on employment by occupation, we single out white-collar workers. These include people working in everything from back-office support and financial operations to copy-writers. White-collar roles

11225354498 - Maria Vitória Gonçalves Vieira

are thought to be especially vulnerable to generative AI, which is becoming ever better at logical reasoning and creativity.

However, there is as yet little evidence of an AI hit to employment. In the spring of 2020 white-collar jobs rose as a share of the total, as many people in service occupations lost their job at the start of the covid-19 pandemic. The white-collar share is lower today, as leisure and hospitality have recovered. Yet in the past year the share of employment in professions supposedly at risk from generative AI has risen by half a percentage point.

It is, of course, early days. Few firms yet use generative-AI tools at scale, so the impact on jobs could merely be delayed. Another possibility, however, is that these new technologies will end up destroying only a small number of roles. While AI may be efficient at some tasks, it may be less good at others, such as management and working out what others need.

AI could even have a positive effect on jobs. If workers using it become more efficient, profits at their company could rise which would then allow bosses to ramp up hiring. A recent survey by Experis, an IT-recruitment firm, points to this possibility. More than half of Britain's employers expect AI technologies to have a positive impact on their headcount over the next two years, it finds.

To see how it all shakes out, we will publish updates to this analysis every few months. But for now, a jobs apocalypse seems a way off.

From The Economist June 17th 2023, p. 71

"as yet" in "there is as yet little evidence" (4th paragraph) can be replaced without significant change of meaning by

A) even though.

B) pretty near.

C) thus far.

D) at least.

E) after all.

Comentários:

A frase original diz: "there is as yet little evidence of an AI hit to employment."
Aqui, "as yet" é usada para indicar que até este momento (ou até agora) não há muitas evidências sobre o impacto da IA no emprego.

Opções de Substituição

A) even though

11225354498 - Maria Vitória Gonçalves Vieira

Significa "embora" e introduz uma concessão, o que não mantém o mesmo sentido da frase original.

Inadequada

B) pretty near

Significa "quase" e não reflete o mesmo significado de "até agora".

Inadequada

C) thus far

Significa "até agora" ou "até este momento" e é um substituto direto e apropriado para “as yet.”

Avaliação: Adequada

D) at least

Significa "pelo menos" e não é uma substituição válida, pois altera o sentido da frase.

Avaliação: Inadequada

E) after all

Significa "afinal" e não tem a mesma função que “as yet.”

Avaliação: Inadequada

In the last sentence of the first paragraph, when the paper mentions an "upheaval", it refers to the possibility of a future

A) dispassion.

B) contempt.

C) stillness.

D) derision.

E) turmoil.

Comentários:

11225354498 - Maria Vitória Gonçalves Vieira

A) dispassion

Significa falta de emoção ou paixão; não tem relação com a ideia de mudança ou distúrbio.

Avaliação: Inadequada

B) contempt

Significa desdém ou desprezo; não se relaciona com o conceito de transformação ou mudança.

Avaliação: Inadequada

C) stillness

Refere-se à quietude ou ausência de movimento; é oposto ao que "upheaval" implica.

Avaliação: Inadequada

D) derision

Significa zombaria ou escárnio; não se relaciona com a ideia de mudança ou perturbação.

Inadequada

E) turmoil

Refere-se a um estado de grande confusão, desordem ou agitação; é um sinônimo próximo e adequado para "upheaval."

From The Economist June 17th 2023, p. 71

By calling some economists "doom-mongers" in "Few of the doom-mongers have a good explanation" (2nd paragraph), the authors

A) preserve their aloofness.

B) advance their support.

C) pour out their praise.

D) express their dissent.

E) expose their glee.

11225354498 - Maria Vitória Gonçalves Vieira

Comentários:

A) preserve their aloofness

Comentário: "Aloofness" implica distanciamento emocional ou falta de interesse. O uso de "doom-mongers" não sugere que os autores estão se mantendo distantes, mas sim envolvidos na discussão.

Avaliação: Inadequada

B) advance their support

Comentário: Esta opção implicaria que os autores estão apoiando os economistas, o que não é o caso, pois estão criticando suas previsões alarmistas.

Avaliação: Inadequada

C) pour out their praise

Comentário: "Pour out their praise" indica uma atitude elogiosa, que é oposta ao tom crítico sugerido pela palavra "doom-mongers."

Avaliação: Inadequada

D) express their dissent

Comentário: Esta opção reflete a ideia de que os autores estão discordando das previsões e opiniões dos economistas, usando o termo "doom-mongers" para descrever a falta de validade em suas afirmações.

Avaliação: Adequada

E) expose their glee

Comentário: "Glee" sugere alegria ou satisfação, o que não se aplica aqui, pois os autores estão criticando os economistas, não revelando prazer em suas previsões.

Avaliação: Inadequada

Economists, however, tend to enjoy making predictions about automation more than they enjoy testing them. In the early 2010s many of them loudly predicted that robots would kill jobs by the millions, only to fall silent when employment rates across the rich world rose to all-time highs. Few of the doom-mongers have a good explanation for why countries with the highest rates of tech usage around the globe, such as Japan, Singapore and South Korea, consistently have among the lowest rates of unemployment.

Here we introduce our first attempt at tracking AI's impact on jobs. Using American data on employment by occupation, we single out white-collar workers. These include people working in everything from back-office support and financial operations to copy-writers. White-collar roles are thought to be especially vulnerable to generative AI, which is becoming ever better at logical reasoning and creativity.

However, there is as yet little evidence of an AI hit to employment. In the spring of 2020 white-collar jobs rose as a share of the total, as many people in service occupations lost their job at the start of the covid-19 pandemic. The white-collar share is lower today, as leisure and hospitality have recovered. Yet in the past year the share of employment in professions supposedly at risk from generative AI has risen by half a percentage point.

It is, of course, early days. Few firms yet use generative-AI tools at scale, so the impact on jobs could merely be delayed. Another possibility, however, is that these new technologies will end up destroying only a small number of roles. While AI may be efficient at some tasks, it may be less good at others, such as management and working out what others need.

AI could even have a positive effect on jobs. If workers using it become more efficient, profits at their company could rise which would then allow bosses to ramp up hiring. A recent survey by Experis, an IT-recruitment firm, points to this possibility. More than half of Britain's employers expect AI technologies to have a positive impact on their headcount over the next two years, it finds.

To see how it all shakes out, we will publish updates to this analysis every few months. But for now, a jobs apocalypse seems a way off.

From The Economist June 17th 2023, p. 71

The adjective in "astonishing breakthroughs" (1st paragraph) is similar in meaning to

A) struggling.

11225354498 - Maria Vitória Gonçalves Vieira

B) straining.

C) strutting.

D) striking.

E) striving.

Comentários:

A) struggling

- Comentário: "Struggling" significa lutando ou tendo dificuldades, o que não se relaciona com a ideia de ser surpreendente ou impressionante.
- Avaliação: Inadequada

B) straining

- Comentário: "Straining" refere-se a um esforço intenso ou pressão, e não transmite a ideia de algo impressionante.
- Avaliação: Inadequada

C) strutting

- Comentário: "Strutting" significa andar de forma orgulhosa ou exibida, que não está relacionado ao contexto de "surpreendente".
- Avaliação: Inadequada

D) striking

- Comentário: "Striking" significa impressionante ou notável, o que é um sinônimo direto de "astonishing".
- Avaliação: Adequada

E) striving

- Comentário: "Striving" significa esforçando-se ou lutando para alcançar algo, que não é sinônimo de ser surpreendente.
- Avaliação: Inadequada

Gabarito Letra D

## Perguntas com respostas

1. Descreva as principais funções da técnica Skimming:

R: São  funções da técnica Skimming:

• ESTRATÉGIA DE LEITURA DE EXAMINAÇÃO

• CAPTAR IDEIAS PRINCIPAIS

• OBSERVAÇÃO GERAL SEM DETER-SE EM UM PONTO ESPECÍFICO
• RECONHECER DICAS SOBRE O ASSUNTO

• NÃO LER TEXTO TODO E SIM, EXPLORAR A LEITURA EM GERAL

• INVESTIGAÇÃO DA IDEIA CENTRAL DO TEXTO

2 - Descreva as principais funções da técnica Scanning:

R: São funções da técnica Scanning:

• ESTRATÉGIA DE LEITURA SELETIVA

• FAZER A "VARREDURA" DO TEXTO EM QUESTÃO

• ATENTAR-SE EM PALAVRAS, FRASES E TERMOS IMPORTANTES

• BUSCAR INFORMAÇÕES OBJETIVAMENTE

• NÃO LER TEXTO TODO E SIM, ENCONTRAR RESPOSTAS ESPECÍFICAS À PERGUNTA

• CONECTAR PALAVRAS PROCURADAS COM O ENUNCIADO DA PERGUNTA

3. “Once in a blue moon” é usado para dizer que algo é extremamente fácil?

R: Não, na verdade essa expressão é usada quando se quer dizer que uma coisa é muito rara de acontecer, quase impossível.

4. Relacione a palavra correspondente em inglês ao seu equivalente em português abaixo tabulado:

11225354498 - Maria Vitória Gonçalves Vieira

R: A seguir a tabela com as palavras em português e o seu correspondente em inglês:

| **Palavra em Portugês** | **Tradução em Inglês** |

# Lista de Questões Estratégica

1. (IBFC/2019 – PREFEITURA DE CABO DE SANTO AGOSTINHO – PE) COUCHSURFING! Imagine you are planning a Holiday in Boston, say, or Sydney, or Dublin. Now, what if you could stay with locals who could give you a guided tour, take you to the best pub or beach, help you improve your English… and all for free? Welcome to the world of Couchsurfing! Yes, Couchsurfing is about a free couch – or bed, or room, or hammock, so it is great for budget travelers. But it is much more than that. The couchsurfing philosophy is about connecting people and cultures. The ethos is "Making the world a better place – one couch at a time." The idea was born in San Francisco in 1999. A young man called Casey Fenton was planning a long weekend in Reykjavik. Iceland is expensive and Casey needed cheap accommodation. So he emailed over 1,500 Icelandic students in Reykjavik to ask if he could sleep on their couch. Casey was not only offered couches, the students also showed him 'their' Reykjavik. Casey decided this was a great way to travel, and launched the site with three friends in 2003. Today the world has more than 2.5 million Couchsurfers, 86,347 of which live in Brazil, the eighth most popular CS country.

(From: BECKER, K. Couchsurfing. Speak up. São Paulo, n. 290, p. 26, out.2011.)

De acordo com o texto, "Couchsurfing" é uma maneira de viajar. A esse respeito, assinale a alternativa correta.

A) são e salvo

B) gastando muito dinheiro

C) com um orçamento baixo

D) sem sair de casa

2. (FCC/2022 – TJ-CE)

BYOD (Bring Your Own Device) refers to the policy of allowing employees to supply their own computing devices for use at work.

Employers save money by eliminating hardware purchasing and maintenance overhead, and employees enjoy the freedom of choice to use whichever mobile phone, tablet or laptop that best meets their preferences.

For example, a user may have a Windows PC for work and a MacBook for a personal laptop.

The keyboard shortcuts for each platform are slightly different, making it easy to mangle copy paste functions in word processors and spreadsheets.

Using the same BYOD MacBook for work and personal computing eliminates these switchover errors.

11225354498 - Maria Vitória Gonçalves Vieira

Even for non-SaaS organizations, user error typically represents a third of all data loss, second only to hardware failure.

The reduction in user error gained from BYOD policies is present regardless of whether an employee is creating a document in Google Apps or Microsoft Word.

There has yet been no rigorous study of the change in rates of user error before and after adopting BYOD policies. Nonetheless, it's safe to assume that some level of user error is reduced by familiarity and comfort with BYOD devices.

YOD can't make your data invulnerable, but combined with good security policies, regular user training and effective data backup, it can make a noticeable difference in the availability and integrity of your company data.

(Disponível em: https://www.wired.com)

According to the text, Bring Your Own Device (BYOD) policies:

A) Benefit organizations with poor security and access policies.

B) Eliminate the necessity of user training and data backup.

C) Increase the risk of data loss and hardware malfunction.

D) Reduce user mistakes caused by using different platforms.

E) Demand users to create documents in Google Apps.

3 - (FCC/2022 – TJ-CE)

Before cloud computing came into existence, companies were required to download applications or programs on their physical PCs or on-premises servers to be able to use them. For any organization, building and managing its own IT infrastructure or data centers is a huge challenge. Even for those who own their own data centers, allocating a large number of IT administrators and resources is a struggle.

The introduction of cloud computing was a paradigm shift in the history of the technology industry. Rather than creating and managing their own IT infrastructure and paying for servers, power and real estate, etc., cloud computing allows businesses to rent computing resources from cloud service providers.

This helps businesses avoid paying heavy upfront costs and the complexity of managing their own data centers. By renting cloud services, companies pay only for what they use such as computing resources and disk space. This allows companies to anticipate costs with greater accuracy. Since cloud service providers do the heavy lifting of managing and maintaining the IT infrastructure, it saves a lot of time, effort and money for businesses.

11225354498 - Maria Vitória Gonçalves Vieira

The cloud also gives organizations the ability to seamlessly upscale or downscale their computing infrastructure as and when needed. Compared to the traditional on-premises data center model, the cloud offers easy access to data from anywhere and on any device with internet connectivity, thereby enabling effective collaboration and enhanced productivity.

(Adaptado de: MCDERMOTT, Matt. Cloud Computing: Benefits, Disadvantages & Types of Cloud Computing Services.

Disponível em: https://www.business2community.com)

No trecho For any organization, building and managing its own IT infrastructure or data centers is a huge challenge (1° parágrafo), o segmento sublinhado tem sentido equivalente, em português, a

A) criar e administrar.

B) construir e distribuir.

C) local e gerência.

D) elaborar e gerir.

E) desenvolvimento e coordenação.

4 - (FCC/2022 – TJ-CE) Depreende-se do texto que a computação em nuvem

A) dificulta o acesso a dados armazenados nos servidores de uma organização, na medida em que exige a presença física do usuário.

B) beneficia os usuários da comunidade acadêmica, apesar de ter sido planejada para a aplicação no universo corporativo.

C) reduz os custos, uma vez que os usuários só precisam pagar pelo que utilizarem, como, por exemplo, espaço em disco, quando e onde precisarem.

D) permite que os usuários planejem antecipadamente o que precisarão usar, pois podem reservar com antecedência os recursos necessários.

E) é um modelo de infraestrutura eficiente, contudo demanda muito esforço, tempo e dinheiro para ser implantado.

A Free Press Needs You

By The Editorial Board
August 15, 2018

In 1787, the year the Constitution was adopted in the USA, Thomas Jefferson famously wrote to a friend, "Were it left to me to decide whether we should have a government without newspapers, or newspapers without a government, I should not hesitate a moment to prefer the latter."

That's how he felt before he became president, anyway. Twenty years later, after enduring the oversight of the press from inside the White House, he was less sure of its value. "Nothing can now be believed which is seen in a newspaper," he wrote. "Truth itself becomes suspicious by being put into that polluted vehicle."

Jefferson's discomfort was, and remains, understandable. Reporting the news in an open society is an enterprise laced with conflict. His discomfort also illustrates the need for the right of free press he helped to preserve. As the founders believed from their own experience, a well-informed public is best equipped to root out corruption and, over the long haul, promotes liberty and justice. "Public discussion is a political duty," the Supreme Court said in 1964. That discussion must be "uninhibited, robust, and wide-open" and "may well include vehement, caustic and sometimes unpleasantly sharp attacks on government and public officials."

(www.nytimes.com/interactive/2018/08/15/opinion/editorials/free-press-local-journalism-news-donald-trump.html?action=click&module=Trending&
pgtype=Article&region=Footer&contentCollection=Trending. Adaptado.)

According to the third paragraph, a well-informed public

A) should create unnecessary conflicts.
B) ends up encouraging freedom and fairness.
C) usually limits political discussions that generate dissent.
D) may face repression by the public officials.
E) avoids caustic discussions and attacks on government.

6 - (INSTITUTO AOCP/2020 – PREFEITURA MUNICIPAL DE BETIM – MG)

TEXT III

Five ways to get a better bedtime routine by Amy Sedghi

Getting to sleep can be a struggle, but blackout blinds and to-do lists can help – as can reserving the bedroom for sex and shut-eye

11225354498 - Maria Vitória Gonçalves Vieira

An eye mask will block out light.

1. Go to bed at regular times

Going to sleep and waking up at regular times – even on weekends – will strengthen your body clock, says Dr Lizzie Hill, a clinical sleep physiologist and a spokeswoman for the British Sleep Society. Regular mealtimes are also an important cue for your circadian rhythm. Avoid exercise too close to bedtime, as it can cause restlessness and an elevated body temperature, says Samantha Briscoe, a senior physiologist at the Sleep Centre at London Bridge hospital.

2. Protect the bedroom

Preserve the bedroom as a place for sleep (and sex): there is evidence that the brain forms a strong association with sleep there. A temperature of 16- 18C (60-64F) is thought to be ideal for most, according to the Sleep Council, an awareness and support organisation. Blackout blinds or an eye mask can help block out light, while keeping electronic devices out of the bedroom is highly recommended. If you struggle to fall asleep after more than 25 minutes, Matthew Walker – a sleep expert and a professor of neuroscience and psychology at the University of California, Berkeley – suggests getting up and going to read under a dim light in another room. Once sleepy, you can return to bed.7

3. Get ahead on the next day

Your night-time routine is an opportunity to make mornings run a little smoother: choose your clothes for the next day when you reach for your pyjamas or pack your bag while brushing your teeth. Martin Hagger, a professor of health psychology at the University of California, Merced, has stressed how routines are linked to the formation of healthy habits.

4. Wind down

Reading a book can help slow breathing and relax muscles, while yoga stretches or even a gentle walk can reduce anxiety, says Briscoe. A warm bath or shower can also help you relax: researchers at the University of Texas at Austin found that bathing in water of 40-42.5C one to two hours before bedtime was associated with better sleep.

5. Write down your worries

11225354498 - Maria Vitória Gonçalves Vieira

“If your mind is buzzing from the day, try keeping a journal or worry book,” suggests Hill. The NHS also recommends writing to-do lists for the next day in order to organise thoughts and clear the mind. “If you experience difficulty with sleep over the longer term, consider whether there may be an underlying medical condition,” says Hill. A sleep diary could help you identify any patterns

(https://www.theguardian.com/lifeandstyle/2019/oct/04/five-ways-toget-a-better-bedtime-routine. Access: 08/01/2020)

Consider the following statements either TRUE or FALSE according to the text and mark the option which contains the correct sequence:

( ) It is a good idea to take a warm shower before bedtime in order to help you relax.

( ) You shouldn’t read a book before going to bed because it makes your brain too much active.

( ) Writing down tasks for the next day may help you relax and sleep quicker.

( ) If you have trouble falling sleep, you should lay in bed waiting until you feel sleepy.

A) T – T – T – F.

B) F – F – T – F.

C) T – T – F – F.

D) F – T – F – T.

E) T – F – T – F.

7. (2024 - CESPE (CEBRASPE) - Centro de Tecnologia da Informação Renato Archer - Pesquisador Associado I - Especialidade: Tecnologias Habilitadas - Área de atuação: Micro e Nanoeletrônica (CTI Renato Archer))

There have been reports that researchers at OpenAI had made a “breakthrough” in Artificial Intelligence (AI). Some media agencies report that such researchers had come up with a new way to make powerful AI systems and had created a new model, called Q. Star, that was able to perform grade-school-level math.

Researchers have for years tried to get AI models to solve math problems. Language models like ChatGPT and GPT-4 can do some math, but not very well or reliably.

People who worry about whether AI poses an existential risk to humans, one of OpenAI’s founding concerns, fear that such capabilities might lead to rogue AI. Safety concerns might arise if such AI systems are allowed to set their own goals and start to interface with a real physical or digital world in some ways, says Katie Collins, a PhD researcher at the University of Cambridge.

11225354498 - Maria Vitória Gonçalves Vieira

However, while math capability might take us a step closer to more powerful AI systems, solving these sorts of math problems doesn't signal the birth of a superintelligence.

Internet:<technologyreview.com> (adapted).

About the ideas and vocabulary of text presented above, judge the following item.

The word "fear" (first sentence of the third paragraph) could be replaced with are afraid, maintaining both the original meaning and the correctness of the text.

C) Certo.
E) Errado.

8. (2024 - CESPE (CEBRASPE) - Centro de Tecnologia da Informação Renato Archer - Pesquisador Associado I - Especialidade: Tecnologias Habilitadas - Área de atuação: Micro e Nanoeletrônica (CTI Renato Archer))

The Q. Star model is capable of performing the kind of math problems seen in elementary schools.

C) Certo.
E) Errado.

9. (2024 - CESPE (CEBRASPE) - Agência Brasileira de Promoção de Exportações e Investimentos - Analista I.1 - Perfil 3 - Negócios Internacionais (APEX-Brasil))

11225354498 - Maria Vitória Gonçalves Vieira

Text CB1A7

Whenever a global economic transformation takes place, a single city usually drives it forward. Ghent, in modern-day Belgium, was at the core of the burgeoning global wool trade in the 13th century. The first initial public offering took place in Amsterdam in 1602. London was the financial centre of the first wave of globalisation during the 19th century. Today the city is San Francisco.

California's commercial capital has no serious rival in generative artificial intelligence (AI), a breakthrough technology that has caused a bull market in American stocks and which, many economists hope, will power a global productivity surge. Almost all big AI start-up companies are based in the Bay Area, which comprises the city of San Francisco and Silicon Valley (largely based in Santa Clara county, to the south). OpenAI is there, of course; so are Anthropic, Databricks and Scale AI. Tech giants, including Meta and Microsoft, are also spending big on AI in San Francisco. According to Brookings Metro, a think tank, last year San Francisco accounted for close to a tenth of generative AI job postings in America, more than any other city of the country. New York, with four times as many residents, was second.

Internet: <www.economist.com> (adapted).

In text CB1A7, the word "which", in the first sentence of the second paragraph, refers back to

A) "serious rival".
B) "a breakthrough technology".
C) "a bull market".
D) "American stocks".

10. (2024 - IPEFAE - Prefeitura Municipal Américo de Campos (SP) - PEB II - Língua Estrangeira Moderna - Inglês (Pref Américo de Campos/SP))

Extract for question

"I have to work with computers and phones all the time in my work, either sitting in front of a screen or living by the apps on my mobile. I think the number of voice-to-voice phone calls has gone down a lot in the last few years, but with Facebook, Instagram, Twitter, and so on, I feel sort of chained to technology the entire length of the working week. So when the weekend comes, there's nothing I like better than switching off the computer, the mobile and the landline and enjoying real peace and quiet. We live near to some fields and open country, and I can listen to the birds sing, go for long walks, maybe drop in at our local pub and have a drink with some of the locals. It's not exciting, I grant you, but it's very relaxing and helps me remember I'm a human being, not a part of some computerised machine. Of course, by Sunday night I'm already thinking about the working week ahead, but never mind. I've had those two days to recharge my batteries, as they say."

Teaching English. The British Council, 2016. Adapted.

11225354498 - Maria Vitória Gonçalves Vieira

Based on the above extract, it is correct to say:

I. The person enjoys spending weekends away from technology, shutting off the computer, mobile, and landline to embrace peace and quiet in nature.

II. The number of voice-to-voice phone calls has significantly increased in the last few years, according to the person's observation.

III. The person prefers spending the weekends in a more relaxed and nature-oriented setting.

A) All the statements are correct.
B) I and III are true.
C) I and II are correct.
D) None of the statements are correct.

# ESSA LEI TODO MUNDO CONHECE:
# PIRATARIA É CRIME.

**Mas é sempre bom revisar o porquê e como você pode ser prejudicado com essa prática.**

1. 

Professor investe seu tempo para elaborar os cursos e o site os coloca à venda.

2. 

Pirata divulga ilicitamente (grupos de rateio), utilizando-se do anonimato, nomes falsos ou laranjas (geralmente o pirata se anuncia como formador de "grupos solidários" de rateio que não visam lucro).

3. 

Pirata cria alunos fake praticando falsidade ideológica, comprando cursos do site em nome de pessoas aleatórias (usando nome, CPF, endereço e telefone de terceiros sem autorização).

4. 

Pirata compra, muitas vezes, clonando cartões de crédito (por vezes o sistema anti-fraude não consegue identificar o golpe a tempo).

5. 

Pirata fere os Termos de Uso, adultera as aulas e retira a identificação dos arquivos PDF (justamente porque a atividade é ilegal e ele não quer que seus fakes sejam identificados).

6. 

Pirata revende as aulas protegidas por direitos autorais, praticando concorrência desleal e em flagrante desrespeito à Lei de Direitos Autorais (Lei 9.610/98).

7. 

Concurseiro(a) desinformado participa de rateio, achando que nada disso está acontecendo e esperando se tornar servidor público para exigir o cumprimento das leis.

8. 

O professor que elaborou o curso não ganha nada, o site não recebe nada, e a pessoa que praticou todos os ilícitos anteriores (pirata) fica com o lucro.

**Deixando de lado esse mar de sujeira, aproveitamos para agradecer a todos que adquirem os cursos honestamente e permitem que o site continue existindo.**
