APRESENTAÇÃO

Olá!

Sou o professor Rodrigo Perni e, com imensa satisfação, serei o seu analista do Passo Estratégico! Para que você conheça um pouco sobre mim segue um resumo de nossa experiência profissional, acadêmica e como concurseiro:

Rodrigo Perni

**Auditor – Fiscal da Receita Federal do Brasil;*

** Coach do Estratégia Concursos;*

** Responsável pela elaboração e análise estatística do Passo Estratégico de Arquivologia, Recurso de Administração de Materiais e Inglês;*

** Formado em Administração de Empresas e*

** Aprovado no concurso do ano de 2005, na 21ª posição na 2ª Região Fiscal no concurso para Auditor-Fiscal da Receita Federal do Brasil.*

Estou extremamente feliz de ter a oportunidade de trabalhar na equipe do "Passo", porque tenho convicção de que nossos relatórios e simulados proporcionarão uma preparação diferenciada aos nossos alunos!

11225354498 - Maria Vitória Gonçalves Vieira

O QUE É O PASSO ESTRATÉGICO?

Serão acrescentadas diversas questões das principais bancas que elaboram concursos públicos nos cadernos de exercícios disponibilizados no final do curso.

O Passo Estratégico é um material escrito e enxuto que possui dois objetivos principais:

a) orientar revisões eficientes;

b) destacar os pontos mais importantes e prováveis de serem cobrados na prova.

Assim, o Passo Estratégico pode ser utilizado tanto para turbinar as revisões dos alunos mais adiantados nas matérias, quanto para maximizar o resultado na reta final de estudos por parte dos alunos que não conseguirão estudar todo o conteúdo do curso regular.

Em ambas as formas de utilização, como regra, o aluno precisa utilizar o Passo Estratégico em conjunto com um curso regular completo.

Isso porque nossa didática é direcionada ao aluno que já possui uma base do conteúdo.

Assim, se você vai utilizar o Passo Estratégico:

a) como método de revisão, você precisará de seu curso completo para realizar as leituras indicadas no próprio Passo Estratégico, em complemento ao conteúdo entregue diretamente em nossos relatórios;

b) como material de reta final, você precisará de seu curso completo para buscar maiores esclarecimentos sobre alguns pontos do conteúdo que, em nosso relatório, foram eventualmente expostos utilizando uma didática mais avançada que a sua capacidade de compreensão, em razão do seu nível de conhecimento do assunto.

Seu cantinho de estudos famoso!
Poste uma foto do seu cantinho de estudos nos stories do Instagram e nos marque:

@passoestrategico

Vamos repostar sua foto no nosso perfil para que ele fique famoso entre milhares de concurseiros!

11225354498 - Maria Vitória Gonçalves Vieira

Análise Estatística

Inicialmente, convém destacar os percentuais de incidência das questões de Inglês nas provas elaboradas pela banca FGV

Lembrando, quanto maior o percentual de cobrança de um dado assunto, maior sua importância:

Assunto	Grau de incidência em concursos anteriores elaborados pela FGV
Interpretação de Textos (compreensão)	45%
Vocabulário e Tradução (inglês)	35%
Gramática (inglês)	20%

11225354498 - Maria Vitória Gonçalves Vieira

ROTEIRO DE REVISÃO E PONTOS DO ASSUNTO QUE MERECEM DESTAQUE

A ideia desta seção é apresentar um roteiro para que você realize uma revisão completa do assunto e, ao mesmo tempo, destacar aspectos do conteúdo que merecem atenção.

ATENÇÃO!!! Serão disponibilizados exercícios das principais bancas que elaboram concursos públicos nos cadernos de questões ao final do curso.

Para revisar e ficar bem preparado no assunto, você precisa, basicamente, seguir os passos a seguir:

1 - O **discurso direto em inglês – direct speech** – é usado quando queremos reproduzir qualquer tipo de informação que nos é relatada.

Ex:

She said, "I study every day because I want to be approved".

Ela disse: "Eu estudo todos os dias porque quero ser aprovada"

2 - O **discurso direto** é utilizado, por exemplo, em jornais e portais de notícias, a fim de enfatizar e, consequentemente, **deixar a notícia mais direta** ou, **às vezes, mais dramática**:

"I won't resign", says the president during the meeting.

(Não irei renunciar", diz o presidente durante a reunião.)

11225354498 - Maria Vitória Gonçalves Vieira

3 - O **indirect speech/reported speech, ou discurso indireto**, é, por sua vez, uma maneira de falar sobre o que alguém disse, para repassar uma notícia, uma história.

Se você diz, por exemplo, que você quer um carro novo e alguém vai me contar, a sequência é a seguinte:

(Você dizendo): – I want a new car.

(Alguém dizendo/contando o que ouviu): – He/She said that he/she wanted a new car.

(O pai dizendo): – I want to see your grades (Eu quero ver suas notas).

(A mãe dizendo à filha o que foi dito): – He said that he wanted to see your grades. (Ele disse que ele queria ver as suas notas).

4 - Veja algumas **mudanças** que acontecem com os **verbos quando o discurso direto é transformado em discurso indireto**, com exemplos abaixo de cada tempo verbal:

DIRECT SPEECH	REPORTED SPEECH
Simple Present	Simple Past
I study with you.	He said that he studied with me.
Simple Past	Past Past Perfect
I wrote the email	He said that he had written the email.
Present Continuous	Past Continuous
I am working.	He said he was working.
Past Continuous	Past Perfect Continuous
I was shopping.	He said that he had been shopping.
Present Perfect	Past Perfect
I have eaten fast food.	He said that he had been eaten fast food
Will	Would
I will visit you tomorrow.	He said that he would visit me the next day.

11225354498 - Maria Vitória Gonçalves Vieira

Can	Could
I can help you.	He said he could help me.

5 - Veja as possíveis modificações no discurso indireto, que podem perguntar na prova.

TIME EXPRESSION CHANGES

DIRECT SPEECH	INDIRECT SPEECH
Today	That day
Yesterday	The day before
Last night	The night before
Now	Then
Here	There
Tomorrow	The next day
This	That (quando em expressão de tempo)
This, That	The (quando adjetivos)
This, These	It, Them (quando pronomes)

6 - Atenção, **alguns lugares**, além dos pronomes e das indicações de tempo acima, também **podem mudar** com a passagem do discurso direto para o indireto.

ex:

They are meeting at my house. (Eles estão se encontrando na minha casa.)

He said that they were meeting at his house. (Ele disse que eles estavam se encontrando na casa dele.)

I got here by train. (Eu cheguei aqui de trem.)

He said he had got there by train. (Ele disse que ele chegou lá de trem.)

11225354498 - Maria Vitória Gonçalves Vieira

7 - Os **verbos modais**, já apresentados em aulas anteriores, também mudam. Se você diz que pode fazer algo, no momento que vou contar a alguém, digo: Ele(a) disse que podia fazer algo. Assim como o "posso" se torna "podia", em inglês seria o can se tornar could, entendeu? Vejamos a seguir a tabela e os exemplos para facilitar:

MODAL VERBS CHANGES

DIRECT SPEECH	INDIRECT SPEECH
Can	Could
May	Might
Must	Had to
Should	Should
Ought to	Ought to

8 - **A voz ativa é o modo mais utilizado para ser claro e direto**. Como é um sujeito que realiza uma ação, o destaque é dado para o sujeito. Uma frase na voz ativa é composta por sujeito + verbo auxiliar + verbo principal + objeto. Por exemplo, na frase:

Pedro washes the car – Pedro lava o carro

9 - Na **voz passiva**, queremos dar **ênfase para o objeto** que está sofrendo a ação, e não para o sujeito. Veja:

The car is washed by Pedro – O carro é lavado por Pedro.

11225354498 - Maria Vitória Gonçalves Vieira

10 - A **voz passiva** é geralmente utilizada em **textos técnicos**, **artigos**, **anúncios** e, como nas provas essas fontes são comuns, a voz passiva é facilmente encontrada em textos.

- **VOZ ATIVA**: I cleaned the garage this morning. – Eu limpei a garagem esta manhã.

- **VOZ PASSIVA**: The garage was cleaned this morning by me – A garagem foi limpa esta manhã por mim.

11 - Reforçando: Comparando as frases para facilitar a compreensão, diferentemente da **voz ativa, com a ênfase está no sujeito**, que praticou a ação, na **voz passiva se enfatiza o objeto, aquele que sofre a ação expressa pelo verbo**. Exatamente isso:

- **VOZ ATIVA**: Teacher Andrea won the competition.

- **VOZ PASSIVA**: The competition was won by teacher Andrea.

11225354498 - Maria Vitória Gonçalves Vieira

APOSTA ESTRATÉGICA

A ideia desta seção é apresentar os pontos do conteúdo que mais possuem chances de serem cobrados em prova, considerando o histórico de questões da banca em provas de nível semelhante à nossa.

Todos os tópicos abordados nesta aula se referem a pontos que serão abordados em aulas posteriores, portanto não haverá uma aposta estratégica específica nesta aula, que será devidamente indicada em aulas futuras dentro de cada assunto específico.

1 - O **discurso direto** em inglês – direct speech – é usado quando queremos reproduzir qualquer tipo de informação que nos é relatada.

Ex:

She said, "I study every day because I want to be approved".

Ela disse: "Eu estudo todos os dias porque quero ser aprovada"

2 - O discurso direto em jornais e portais de notícias, a fim de enfatizar e, consequentemente, deixar a notícia mais direta ou, às vezes, mais dramática:

"I won't resign", says the president during the meeting.

(Não irei renunciar", diz o presidente durante a reunião.)

3 - O **indirect speech/reported speech**, ou **discurso indireto**, é, por sua vez, uma maneira de falar sobre o que alguém disse, para repassar uma notícia, uma história.
Se você diz, por exemplo, que você quer um carro novo e alguém vai me contar, a sequência é a seguinte:

(Você dizendo): – I want a new car.

(Alguém dizendo/contando o que ouviu): – He/She said that he/she wanted a new car.

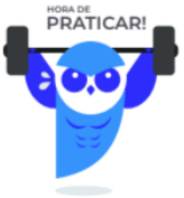

(O pai dizendo): – I want to see your grades (Eu quero ver suas notas).

11225354498 - Maria Vitória Gonçalves Vieira

QUESTÕES ESTRATÉGICAS

Nesta seção, apresentamos e comentamos uma amostra de questões objetivas selecionadas estrategicamente: são questões com nível de dificuldade semelhante ao que você deve esperar para a sua prova e que, em conjunto, abordam os principais pontos do assunto.

A ideia, aqui, não é que você fixe o conteúdo por meio de uma bateria extensa de questões, mas que você faça uma boa revisão global do assunto a partir de, relativamente, poucas questões.

1. (2024 - FGV - CONTROLADORIA GERAL DO ESTADO DA PARAÍBA - AUDITOR DE CONTAS PÚBLICAS - AUDITORIA DE OBRAS PÚBLICAS (CGE PB) - 2024)

Audit data analytics, machine learning, and full population testing

Technologies are evolving at an unprecedented pace and pose significant challenges and opportunities to companies and related parties, including the accounting profession. In today's business environment, it is inevitable for companies to react quickly to changing conditions and markets. Many companies are seeking better ways to utilize emerging technologies to transform how they conduct business. We live in an age of information explosion, with technologies capable of making revolutionary changes in various industries and reshaping business models. At present, many companies view data as one of their most valuable assets. They amass an unprecedented amount of data from their daily business operation and strive to harness the power of data through analytics. Emerging technologies like robotic process automation, machine learning, and data analytics also impact the accounting profession. It is important for the profession to understand the impacts, opportunities, and challenges of these technologies.

Specifically, in audit and assurance areas, data analytics and machine learning will lead to many changes in the foreseeable future. Audit sampling is one such potential change. The use of sampling in audits has been criticized since it only provides a small snapshot of the entire population. To address this major issue, this study introduces the idea of applying audit data analytics and machine learning for full population testing through the concept of "audit-by-exception" and "exceptional exceptions." In this way, the emphasis of audit work shifts from "transaction examination" to "exception examination" and prioritizes the exceptions based on different criteria. Consequently, auditors can assess the associated risk based on the entire population of the transactions and thus enhance the effectiveness and efficiency of the audit process.

Adapted from the introduction to a study published in: https://www.sciencedirect.com/science/article/pii/S240591882200006X

11225354498 - Maria Vitória Gonçalves Vieira

The verb form in “has been criticized” (2nd paragraph) is in the:

A) simple past, active voice;
B) simple past, passive voice;
C) present perfect, active voice;
D) present perfect, passive voice;
E) present continuous, passive voice

Comentários:

A questão requer que você indique em que tempo e voz está a forma verbal em “*has been criticized*” (2º parágrafo).

Destrinchando os elementos dessa forma verbal, observe que temos, nessa exata ordem: o verbo *to have* + o verbo *to be* no particípio passado + o verbo principal também no particípio passado.

Com um pequeno detalhe que será explicado a seguir, tal estrutura corresponde àquela do presente perfeito (verbo auxiliar *to have,* conjugado como *have/has* + verbo principal no particípio passado).

A única diferença entre a frase dada e a estrutura apresentada acima reside no uso da forma verbal "*been*", que faz parte da construção da voz do enunciado.

Para identificar a voz ativa em uma frase, devemos buscar a ordem "normal" dos elementos que a compõem, ou seja, a estrutura padrão:

---> sujeito (que pratica a ação) + verbo principal + complementos e objetos.

Para reconhecer a estrutura da voz passiva, por sua vez, três elementos são essenciais:

---> sujeito que recebe a ação + verbo *to be* + verbo principal no particípio passado.

Na frase dada no enunciado, você irá perceber que temos o verbo *to be* no presente perfeito (tempo verbal da frase), seguido do verbo principal também no particípio (*has been criticized* - foi criticado), o que corresponde precisamente à estrutura da voz passiva revisada acima.

Assim, a frase dada na questão está conjugada no presente perfeito e na voz passiva.

Portanto, o gabarito é a alternativa D, *present perfect, passive voice* (presente perfeito, voz passiva).

Gabarito Letra D

Text I

11225354498 - Maria Vitória Gonçalves Vieira

The “literacy turn” in education: reexamining what it means to be literate

In response to the phenomena of mass migration and the emergence of digital communications media that defined the last decade of the 20th century, the New London Group (NLG) called for a broader view of literacy and literacy teaching in its 1996 manifesto, A Pedagogy of Multiliteracies: Designing Social Futures. The group argued that literacy pedagogy in education must (1) reflect the increasing cultural and linguistic diversity of the contemporary globalized world, and (2) account for the new kinds of texts and textual engagement that have emerged in the wake of new information and multimedia technologies. In order to better capture the plurality of discourses, languages, and media, they proposed the term ‘multiliteracies’.

Within the NLG’s pedagogy of multiliteracies, language and other modes of communication are viewed as dynamic resources for meaning making that undergo constant changes in the dynamics of language use as learners attempt to achieve their own purposes. Within this broader view of literacy and literacy teaching, learners are no longer “users as decoders of language” but rather “designers of meaning.” Meaning is not viewed as something that resides in texts; rather, deriving meaning is considered an active and dynamic process in which learners combine and creatively apply both linguistic and other semiotic resources (e.g., visual, gesture, sound, etc.) with an awareness of “the sets of conventions connected with semiotic activity [...] in a given social space” (NLG, 1996, p. 74).

Grounded within the view that learning develops in social, cultural, and material contexts as a result of collaborative interactions, NLG argued that instantiating literacy-based teaching in classrooms calls on the complex integration and interaction of four pedagogical components that are neither hierarchical nor linear and can at times overlap: situated practice, overt instruction, critical framing, and transformed practice. [...]

Although the NLG’s pedagogy of multiliteracies was conceived as a “statement of general principle” (1996, p. 89) for schools, the group’s call for educators to recognize the diversity and social situatedness of literacy has had a lasting impact on foreign language (FL) teaching and learning. The reception of the group’s work along with that of other scholars from critical pedagogy appeared at a time when the field was becoming less solidly anchored in theories of L2 acquisition and more interested in the social practice of FL education itself. In the section that follows, we describe the current state of FL literacy studies as it has developed in recent years, before finally turning to some very recent emerging trends that we are likely to see develop going forward.

(Adapted from: https://www.colorado.edu/center/altec/sites/default/files/attachedfiles/moving_toward_multiliteracies_in_foreign_language_teaching.pdf)

The verb form in “the NLG’s pedagogy of multiliteracies was conceived” (4th paragraph) is in the

A) simple past, active voice.

B) simple past, passive voice.

C) simple present, active voice.

D) present perfect, active voice.

11225354498 - Maria Vitória Gonçalves Vieira

E) simple present, passive voice.

Comentários:

A frase “the NLG’s pedagogy of multiliteracies was conceived” está no simple past, passive voice, o que torna a resposta correta:

B) simple past, passive voice.

Justificativa:

1. Simple past (passado simples): A forma verbal "was conceived" usa o verbo auxiliar was, que é a conjugação do verbo to be no passado, seguido pelo particípio passado do verbo principal conceived. Isso indica uma ação que foi concluída no passado.
2. Passive voice (voz passiva): A voz passiva é usada quando o sujeito da frase sofre a ação, em vez de realizá-la. Neste caso, a pedagogia de multiliteracies ("the NLG’s pedagogy of multiliteracies") foi concebida por alguém, mas o foco está na ação sofrida pelo sujeito, e não em quem a realizou.

As outras opções estão incorretas porque:

A) Simple past, active voice: A voz ativa indicaria que o sujeito realiza a ação, o que não é o caso aqui.

C) Simple present, active voice: Indica uma ação no presente, o que não se aplica, já que a ação foi concluída no passado.

D) Present perfect, active voice: O present perfect envolve o uso de "has/have" + particípio passado, o que não é o caso aqui.

E) Simple present, passive voice: O simple present seria "is conceived", o que não corresponde ao tempo verbal da frase.

Portanto, a forma correta é simple past, passive voice.

Gabarito Letra B

Correspondence

Human genome editing: potential seeds of conflict
Recently, The Lancet published an important declaration regarding the necessity of regulating and legislating for human genome editing. We agree with their opinions that the human genome

11225354498 - Maria Vitória Gonçalves Vieira

editing technology and resulting research can have both positive and negative effects on human society. The use of genome editing for research and commercial purposes has sparked debates in both biological and political realms. However, most of them have mainly focused on the effects of human genome editing on the patients themselves, and little attention has been paid to their offspring.

Several films, such as Gattaca and Gundam SEED, have addressed the conflicts that arise from human genome editing. Such conflicts not only exist within the generation who have experienced editing but are also transmitted to their offspring. For example, in these films, the offspring of people without genome editing felt a sense of unfairness regarding the inferiority of their physical (or other non-edited domains) status, whereas the offspring of people with genome editing grew up in a biased, discriminated against, and ostracized environment. They could have lived in peace with a strong and well regulated government; however, when the tenuous grip of government weakens, jealousy and resentment can lead to ruins. Although these scenes still exist in films, they might become increasingly plausible in decades to come. Using the concept of preparedness, access, countermeasures, tools, and trust, we should prepare legitimate human genome editing, establish access to deal with imminent or potential discrimination, develop countermeasures and tools for prevention and resolution of conflict, and entrust future generations with the responsibility to use them wisely.

Bing-Yan Zeng, Ping-Tao Tseng, *Chih-Sung Liang

Adapted from: www.thelancet.com, vol. 401, June 24, 2023 at

https://www.thelancet.com/action/showPdf?pii=S0140-6736%2823%2901084-X

The excerpt that has an example of a verb in the passive voice is

A) “They could have lived”.

B) “these scenes still exist”.

C) “resulting research can have”.

D) “little attention has been paid”.

E) “the generation who have experienced”.

Comentários:

A frase que contém um exemplo de verbo na voz passiva é:

D) “little attention has been paid”.

Justificativa:

11225354498 - Maria Vitória Gonçalves Vieira

Na frase "little attention has been paid", o verbo "has been paid" está na voz passiva. A voz passiva é usada quando o foco está na ação sofrida pelo sujeito, e não em quem realiza a ação. Neste caso, a "little attention" (pouca atenção) é o que sofre a ação de "ser dada", mas quem dá essa atenção não é mencionado, por isso é passiva.

As outras opções não são exemplos de voz passiva:

A) “They could have lived” está na voz ativa, porque o sujeito "they" realiza a ação de viver.

B) “these scenes still exist” também está na voz ativa, pois "these scenes" realizam a ação de existir.

C) “resulting research can have” é voz ativa, onde a pesquisa realiza a ação de ter efeitos.

E) “the generation who have experienced” está na voz ativa, onde "the generation" realiza a ação de experimentar.

Gabarito: Letra D

Text I

What is English as a Lingua Franca?

‘English’, as a language, has for some time been seen as a global phenomenon and, therefore, as no longer defined by fixed territorial, cultural and social functions. At the same time, people using English around the world have been shaping it and adapting it to their contexts of use and have made it relevant to their socio-cultural settings. English as a Lingua Franca, or ELF for short, is a field of research interest that was born out of this tension between the global and the local, and it originally began as a ramification of the World Englishes framework in order to address the international, or, rather, transnational perspective on English in the world. The field of ELF very quickly took on a nature of its own in its attempt to address the communication, attitudes, ideologies in transnational contexts, which go beyond the national categorisations of World Englishes (such as descriptions of Nigerian English, Malaysian English and other national varieties). ELF research, therefore, has built on World Englishes research by focusing on the diversity of English, albeit from more transnational, intercultural and multilingual perspectives.

ELF is an intercultural medium of communication used among people from different socio-cultural and linguistic backgrounds, and usually among people from different first languages. Although it is possible that many people who use ELF have learnt it formally as a foreign language, at school or in an educational institution, the emphasis is on using rather than on learning. And this is a fundamental difference between ELF and English as a Foreign Language, or EFL, whereby people learn English to assimilate to or emulate native speakers. In ELF, instead, speakers are considered language users in their own right, and not failed native speakers or deficient learners of English. Some examples of typical ELF contexts may include communication among a group of neuroscientists, from, say, Belgium, Brazil and Russia, at an international conference on

11225354498 - Maria Vitória Gonçalves Vieira

neuroscience, discussing their work in English, or an international call concerning a business project between Chinese and German business experts, or a group of migrants from Syria, Ethiopia and Iraq discussing their migration documents and requirements in English. The use of English will of course depend on the linguistic profile of the participants in these contexts, and they may have another common language at their disposal (other than English), but today ELF is the most common medium of intercultural communication, especially in transnational contexts.

So, research in ELF pertains to roughly the same area of research as English as a contact language and English sociolinguistics. However, the initial impetus to conducting research in ELF originated from a pedagogical rationale – it seemed irrelevant and unrealistic to expect learners of English around the world to conform to native norms, British or American, or even to new English national varieties, which would be only suitable to certain socio-cultural and geographical locations. So, people from Brazil, France, Russia, Mozambique, or others around the world, would not need to acquire the norms originated and relevant to British or American English speakers, but could orientate themselves towards more appropriate and relevant ways of using English, or ELF. Researchers called for "closing a conceptual gap" between descriptions of native English varieties and new empirical and analytical approaches to English in the world. With the compilation of a number of corpora, ELF empirical research started to explore how English is developing, emerging and changing in its international uses around the world. Since the empirical corpus work started, research has expanded beyond the pedagogical aim, to include explorations of communication in different domains of expertise (professional, academic, etc.) and in relation to other concepts and research, such as culture, ideology and identity.

Adapted from https://www.gold.ac.uk/glits-e/ back-issues/english-as-a-lingua-franca/

In the opening sentence, the verb phrase in "'English', as a language, has for some time been seen" is in the

A) past perfect, active voice.

B) past perfect, passive voice.

C) simple present, passive voice.

D) present perfect, passive voice.

E) present perfect continuous, active voice.

Comentáirios:

A frase "has for some time been seen" está no presente perfeito, voz passiva.

Justificativa:

Presente perfeito: A estrutura "has been seen" é um exemplo do presente perfeito, que é formado com o verbo auxiliar "has" ou "have" seguido do particípio passado do verbo principal ("seen" neste caso).

Voz passiva: A voz passiva é usada quando o foco está na ação sofrida pelo sujeito e não em quem a realiza. O sujeito "English" sofre a ação de ser visto, mas não é o agente dessa ação.

11225354498 - Maria Vitória Gonçalves Vieira

Portanto, a resposta correta é D) present perfect, passive voice.

Vamos analisar as demais opções:

A) Past perfect, active voice

Past perfect (mais-que-perfeito): O tempo past perfect é formado com "had" + particípio passado do verbo principal (ex: "had seen"). Ele é usado para descrever uma ação que ocorreu antes de outra ação no passado.

Active voice (voz ativa): Na voz ativa, o sujeito realiza a ação. Exemplo: "She had seen the movie."

No entanto, a frase “has for some time been seen” está no presente perfeito, não no passado perfeito, e está na voz passiva, não ativa. Logo, esta opção está incorreta.

B) Past perfect, passive voice

Past perfect, passive voice: Na voz passiva do past perfect, a estrutura seria "had been" + particípio passado do verbo principal (ex: "had been seen"). Isso indicaria que a ação foi concluída antes de outra no passado.

A frase do texto está no presente perfeito, não no passado perfeito, então esta opção está incorreta.

C) Simple present, passive voice

Simple present (presente simples): A estrutura do presente simples na voz passiva seria "is/are" + particípio passado do verbo principal (ex: "is seen" ou "are seen").

Na frase “has for some time been seen”, temos "has been", o que indica o presente perfeito e não o presente simples. Portanto, esta opção também está incorreta.

E) Present perfect continuous, active voice

Present perfect continuous: A estrutura do presente perfeito contínuo é "has/have been" + verbo com "-ing" (ex: "has been seeing"). Ele descreve uma ação que começou no passado e ainda está em andamento ou foi recentemente concluída.

Active voice: Na voz ativa, o sujeito realiza a ação. Exemplo: "She has been seeing the doctor."

A frase “has for some time been seen” está no presente perfeito passivo, não no presente perfeito contínuo, então esta opção também está incorreta.

Gabarito Letra D

5 - (FGV - 2023 - Professor de Educação Básica (SEE MG)/Língua Inglesa)

English Language Learning In Brazil

11225354498 - Maria Vitória Gonçalves Vieira

According to the BNCC1, learning English enables students to engage and participate in a globalized and pluralistic world. It allows students to develop a critical mindset and exercise their citizenship rights while expanding the possibilities of interaction and mobility. In this sense, the BNCC outlines three critical implications for the English curriculum. The first is the globalized nature of English, in which the concepts of language, territory and culture are reconsidered since English speakers are no longer found only in countries where English is the official language. The second implication concerns broadening the definition of literacy, bringing the concept of "multi-literacies" to the Brazilian curriculum as students expand their linguistic knowledge, and English becomes a symbolic asset for Brazilians to express themselves in a different language. Finally, the third implication concerns different teaching approaches, which implies embracing the culture and traditions of the language, not only the formal grammatical standards, breaking with aspects related to "correctness", "accuracy", and "proficiency".

[…]

Even in a challenging context, it is clear that Brazil has made significant progress by approving a new and flexible curriculum for upper secondary schools and putting English mandatory in the standard part of the curriculum. However, major efforts are still required to ensure the smooth implementation of this reform, which the pandemic and the difficulties in coordination across the national and subnational levels have already hindered.

1 BNCC: Base Nacional Comum Curricular

Adapted from: https://www.thedialogue.org/analysis/english-language-learning-in-brazil/

The excerpt "major efforts are still required" (2nd paragraph) is in the

A) simple past, passive voice.

B) present perfect, active voice.

C) simple present, passive voice.

D) present continuous, active voice.

Comentários:

A frase "major efforts are still required" está na voz passiva, porque o sujeito "major efforts" (grandes esforços) recebe a ação de serem necessários. O verbo principal "required" (necessário) é acompanhado pelo verbo auxiliar "are", formando a estrutura passiva. Agora, vamos analisar as alternativas:

A) simple past, passive voice.

Errado. A frase está no presente, não no passado.

B) present perfect, active voice.

Errado. O presente perfeito seria uma forma como "have been required", e a frase está na voz passiva, não ativa.

11225354498 - Maria Vitória Gonçalves Vieira

C) simple present, passive voice.

Correto. A frase está no presente simples ("are") e na voz passiva ("required").

D) present continuous, active voice.

Errado. O presente contínuo ativo seria algo como "are requiring", mas aqui está na voz passiva, e não contínua.

A resposta correta é C) simple present, passive voice, pois a estrutura da frase mostra claramente o uso de voz passiva no presente simples.

Gabarito Letra C

Read the text and answer the question that follows it:

Multimodality in the English language classroom: A systematic review of literature

Literacy in the 21st century is now no longer regarded simply as the ability to use a language competently in a mono-cultural setting. Literacy today involves students knowing how to navigate across an increasingly complex communication landscape and to negotiate a range of contexts and patterns of intercultural meanings as well as the prevalence of multimodal texts.

Contemporary communication environment is characterised by multimodal meaning-making, that is the "multiplicities of media and modes", as well as "increasing local diversity and global connectedness" (New London Group, 1996, p. 62) which necessitates a shift in the pedagogical approaches that are adopted by teachers. This is especially so in the digital age where a sole focus on language in literacy is no longer sufficient for the new workplace given that a revised sense of 'competence' is required. The recognition of social diversity also demands pedagogical approaches that engage with the transcultural and multicultural classroom. Issues of the day such as fake news and social justice concerns also need to be addressed in the literacy classroom.

Multimodality focuses on understanding how semiotic resources (visual, gestural, spatial, linguistic, and others) work and are organised. Multimodality in education adopts an expanded view of literacy to include the range of multimodal communicative practices which young people are involved in today's digital age. Multimodal pedagogies refer to the ways in which the teacher can design learning experiences using a range of multimodal resources. It involves teachers making design choices in the ways in which the curriculum content is expressed, arranged, and sequenced multimodally. Multimodal pedagogies also involve designing opportunities for students to explore and perform ideas and identities using a range of meaning-making resources. The teaching and learning activities often involve drawing from the students' funds of knowledge and their lifeworld. With multimodal pedagogies, teachers orchestrate the learning process by weaving together a series of knowledge representations into a cohesive tapestry and in so doing make apt selection of meaning-making resources to design the students' learning experience.

Adapted from https://www.sciencedirect.com/science/article/abs/pii/S0898589822000365

The sentence that presents the verb form in the passive voice is:

11225354498 - Maria Vitória Gonçalves Vieira

A) “It involves teachers making design choices”.

B) “Multimodal pedagogies also involve designing opportunities”.

C) “the curriculum content is expressed, arranged, and sequenced multimodally”.

D) “Multimodality focuses on understanding how semiotic resources […] work”.

E) “With multimodal pedagogies, teachers orchestrate the learning process”.

Comentários:

A frase que apresenta o verbo na voz passiva é:

C) “the curriculum content is expressed, arranged, and sequenced multimodally”.

Comentário sobre as opções:

A) “It involves teachers making design choices”

Errado. O verbo "involves" está na voz ativa, e a estrutura geral da frase também está ativa.

B) “Multimodal pedagogies also involve designing opportunities”

Errado. Similar à opção A, o verbo "involve" está na voz ativa.

C) “the curriculum content is expressed, arranged, and sequenced multimodally”

Correto. Nesta frase, "is expressed", "arranged", e "sequenced" estão na voz passiva. O sujeito "the curriculum content" recebe a ação.

D) “Multimodality focuses on understanding how semiotic resources […] work”

Errado. O verbo "focuses" está na voz ativa, assim como "work".

E) “With multimodal pedagogies, teachers orchestrate the learning process”

Errado. O verbo "orchestrate" está na voz ativa.

Conclusão:

A opção C é a correta, pois apresenta o uso da voz passiva com os verbos "is expressed", "arranged", e "sequenced".

7 - (FGV - 2022 - Professor (SEAD AP)/Educação Básica Profissional/Língua Inglesa)

Critical Literacy

11225354498 - Maria Vitória Gonçalves Vieira

Critical literacies are not new among scholars and researchers in literacy education. However, due to different theoretical bases, there is no unique definition of "critical literacy". In their broadest sense, critical literacies refer to the ability to read texts going beyond their superficial meaning. That is, it implies approaching texts in a reflective way to understand working ideologies such as power, inequality, and injustice. In the realm of critical literacy, text is understood as a "vehicle through which individuals communicate with one another using the codes and conventions of society" (Robinson & Robinson, 2003, p. 3). Texts, in this sense, can be either songs, novels, poems, conversations, pictures, movies, and so on. […]

Hence, the critical literacies approach is generally contrasted with functional literacy. The former views literacy as a social practice, while the latter views literacy as the mastery of linguistic skills. In addition, Manning (1999) developed a framework to distinguish critical literacies from functional literacy by establishing the difference between their respective ideology purpose, literacy curriculum, and instruction. On the one hand, the main objective of functional literacy is to produce skilled workers for the marketplace. Consequently, the curriculum is restrictive and the instruction is individualistic and competitive.

On the other hand, for critical literacies, texts are not neutral but marked by power messages, dominating interests, and hidden agendas. In order to deconstruct these texts and unveil their ideological messages and power relationships, the curriculum is to employ materials from the everyday world as text and analytic tools.

Critical scholars have overtly supported the idea that there is not a single procedure for incorporating critical literacies into the classroom, given that the particularities of the context where the foreign language is taught differ from one another. Thus, an approach to critical literacies "needs to be continually redefined in practice" (Comber, 2001, p. 274).

Adapted from: Jiménez, M.C. G. and Gutiérrez, C.P. "Engaging English as a Foreign Language

Students in Critical Literacy Practices: The Case of a Teacher at a Private University" available at

http://www.scielo.org.co/scielo.php?script= sci_arttext&pid=S1657-07902019000100091&lng=en&nrm=iso

The verb phrase in "where the foreign language is taught" is in the

A) present perfect, passive voice.

B) present perfect, active voice.

C) simple present, passive voice.

D) simple present, active voice.

E) simple future, passive voice.

Comentários:

A frase "where the foreign language is taught" apresenta o verbo na voz passiva do presente simples.

11225354498 - Maria Vitória Gonçalves Vieira

A forma verbal "is taught" é composta pelo verbo auxiliar "is" (presente simples do verbo "to be") seguido pelo particípio passado "taught", que indica a ação sendo realizada no sujeito da frase ("the foreign language"). Portanto, trata-se da estrutura da voz passiva no presente simples.

Comentário sobre as opções:

A) present perfect, passive voice

Errado. O presente perfeito seria formado com "has/have been taught". A frase está no presente simples, não no presente perfeito.

B) present perfect, active voice

Errado. O presente perfeito ativo seria "has/have taught", e a frase está na voz passiva, não ativa.

C) simple present, passive voice

Correto. A frase "is taught" está no presente simples, e o verbo está na voz passiva, pois o sujeito ("the foreign language") recebe a ação de "ser ensinado".

D) simple present, active voice

Errado. Na voz ativa, a frase seria "teaches" (por exemplo, "the teacher teaches the foreign language"), mas aqui o sujeito está recebendo a ação, caracterizando a voz passiva.

E) simple future, passive voice

Errado. O futuro simples passivo seria "will be taught", mas a frase está no presente simples.

Conclusão:

A resposta correta é C) simple present, passive voice, pois a frase "where the foreign language is taught" está no presente simples e na voz passiva.

Gabarito Letra C

8 - (VUNESP - 2024 - Professor (Pref Osasco)/Educação Básica II/Inglês)

All learners of English, whatever their situation, come to the classroom with at least one other language, their mother tongue (often called their LI). We need to ask ourselves, therefore, whether it is appropriate for them to use the LI in class when their main object is, after all to learn an L2 (in our case English).

The first thing to remember is that, especially at beginner levels, students are going to translate what is happening into their LI whether teachers want them to or not. It is a natural process of learning a foreign language. On the other hand, an English-language classroom should have English in it, and as far as possible, there should be an English environment in the room, where English is heard and used as much of the time as possible. For that reason, it is advisable for teachers to use English as often as possible, and not to spend a long time talking in the students' LI.

11225354498 - Maria Vitória Gonçalves Vieira

However, where teacher and students share the same LI it would be foolish to deny its existence and potential value. Once we have given instructions for an activity, for example, we can ask students to repeat the instructions back to us in the LI - and this will tell us whether they have understood what they have to do. When we have complicated instructions to explain, we may want to do this in the LI, and where students need individual help or encouragement, the use of the LI may have very beneficial effects.

(Harmer. 1998. How to teach English. Adaptado)

O excerto do segundo parágrafo "where English is heard and used as much of the time as possible" apresenta exemplo de uso de voz passiva. Nas citações a seguir, a única que aceita o uso de voz passiva sem alteração do significado é

A) "Darkness cannot drive out darkness; only light can do that". Martin Luther King Jr

B) "If you look at what you have in life, you'll always have more. If you look at what you don't have in life, you'll never have enough." Oprah Winfrey

C) "In the midst of darkness, light persists.". Mahatma Gandhi

D) "There is a crack in everything, that's how the light gets in." Leonard Cohen

E) "It is during our darkest moments that we must focus to see the light." Aristotle

Comentários:

A resposta correta é a letra A: "Darkness cannot drive out darkness; only light can do that." Essa frase, proferida por Martin Luther King Jr., mantém seu significado quando transformada em voz passiva.

Comentários sobre as demais opções:

B) "If you look at what you have in life, you'll always have more. If you look at what you don't have in life, you'll never have enough." — Oprah Winfrey: Essa citação apresenta um conceito ativo, e ao converter em voz passiva, o sentido da frase pode se perder.

C) "In the midst of darkness, light persists." — Mahatma Gandhi: Esta frase tem uma estrutura clara que se altera significativamente se convertida para a voz passiva, prejudicando seu impacto.

D) "There is a crack in everything, that's how the light gets in." — Leonard Cohen: Ao transformar essa citação em voz passiva, a intenção original pode ser obscurecida.

E) "It is during our darkest moments that we must focus to see the light." — Aristotle: Essa citação apresenta um valor temporal e uma urgência que podem se diluir se alteradas para a voz passiva.

Portanto, a letra A é a única que aceita a voz passiva sem perda de significado, pois sua estrutura permite essa transformação mantendo a clareza e a força da mensagem.

Gabarito Letra A

11225354498 - Maria Vitória Gonçalves Vieira

9 - (2024 - CESPE (CEBRASPE) - ITAIPU BINACIONAL - PROFISSIONAL DE NÍVEL UNIVERSITÁRIO JR - TURISMÓLOGO (ITAIPU))

Text 22A4-II

Over the past few years, Peruvian authorities have tried to find ways to manage increasing visitor numbers to the popular site which often had long lines and overcrowding, leaving many tourists unable to enter. Machu Picchu was awarded UNESCO World Heritage status in 1983 and is described by the awarding body as probably the most amazing urban creation of the Inca Empire at its height. It added its giant walls, terraces, and ramps "seem as if they have been cut naturally" into the continuous rock escarpments. The citadel, 130 km from Cusco, was built in the 15th as a religious sanctuary for the Incas at an altitude of 2,490 meters.

However, UNESCO also highlighted the challenges faced by the site, which it says requires more stringent management. "Tourism itself represents a double-edged sword by providing economic benefits but also by resulting in major cultural and ecological impacts," said UNESCO. "The strongly increasing number of visitors to the historic sanctuary of Machu Picchu must be matched by an adequate management regulating access, diversifying the offer, and efforts to fully understand and minimize impacts. A larger appropriate and increasing share of the significant tourism revenues could be reinvested in planning and management.".

Internet: <https://www.thenationalnews.com> (adapted).

Each of the following options presents a reformulation of the last sentence of text 22A4-II, which was originally written in the Passive Voice. Choose the one that maintains its meaning and correction.

A) Peruvian authorities could reinvest a larger appropriate and increasing share of the significant tourism revenues in planning and management.
B) A larger appropriate and increasing share of the significant tourism revenues could reinvest in planning and management.
C) They could plan and manage all tourism revenues coming from a larger appropriate and increasing share.
D) Peruvian authorities could be reinvested a larger appropriate and increasing share of the significant tourism revenues in planning and management.
E) A larger appropriate and increasing share of the significant tourism revenues must be reinvested in planning and management.

Comentários:

A frase original mencionada é: "A larger appropriate and increasing share of the significant tourism revenues could be reinvested in planning and management." Ela está na voz passiva, e a questão pede uma reformulação da frase que mantenha o mesmo significado e correção.

Análise das opções:

A) Peruvian authorities could reinvest a larger appropriate and increasing share of the significant tourism revenues in planning and management.

11225354498 - Maria Vitória Gonçalves Vieira

Correto. Essa opção reformula a frase original para a voz ativa, mantendo o mesmo sentido. A responsabilidade de reinvestir as receitas turísticas significativas recai sobre as "autoridades peruanas".

B) A larger appropriate and increasing share of the significant tourism revenues could reinvest in planning and management.

Errado. Nessa opção, a estrutura está incorreta, pois uma "parte maior apropriada e crescente das receitas turísticas" não pode "reinvestir" por si só, já que não é um sujeito que realiza a ação.

C) They could plan and manage all tourism revenues coming from a larger appropriate and increasing share.

Errado. Essa opção altera o sentido da frase original. Aqui se fala em "planejar e gerenciar todas as receitas", o que não reflete a ideia original de reinvestir uma parte das receitas no planejamento e na gestão.

D) Peruvian authorities could be reinvested a larger appropriate and increasing share of the significant tourism revenues in planning and management.

Errado. A estrutura gramatical dessa frase está incorreta. "Authorities could be reinvested" não faz sentido, já que "autoridades" não podem ser reinvestidas.

E) A larger appropriate and increasing share of the significant tourism revenues must be reinvested in planning and management.

Errado. Embora gramaticalmente correta, essa opção altera o modal de "could" para "must", mudando o tom da frase de uma sugestão (poderia) para uma obrigação (deve), o que altera o significado original.

Conclusão:

A opção correta é A) Peruvian authorities could reinvest a larger appropriate and increasing share of the significant tourism revenues in planning and management, pois reformula a frase para a voz ativa, mantendo o significado e a correção.

Gabarito Letra A

10 - (2024 - BRB Consultoria e Concurso - Prefeitura Municipal de Senhor do Bonfim (BA) - Professor Inglês (Pref Senhor do Bonfim/BA))

Which option correctly represents the first conditional?

A) If she will study hard, she passed the exam.

B) If he is going to the party, he calls me.

C) If it will rain tomorrow, we will have a picnic.

D) If they will come on time, we could start the meeting.

11225354498 - Maria Vitória Gonçalves Vieira

E) If I see him, I will tell him about the news.

Comentários:

A opção correta é:

E) If I see him, I will tell him about the news.

Comentário:

A primeira condicional (ou condicional do tipo 1) é usada para expressar uma situação futura que é possível e provável. A estrutura típica é:

- If + present simple, + will + base form of the verb

Vamos analisar cada opção:

A) If she will study hard, she passed the exam.

Errado. A estrutura "will study" não é usada na oração condicional; deve ser "If she studies hard, she will pass the exam."

B) If he is going to the party, he calls me.

Errado. "Is going to" é uma forma que não se encaixa bem na estrutura da primeira condicional. A forma correta seria "If he goes to the party, he will call me."

C) If it will rain tomorrow, we will have a picnic.

Errado. "Will rain" não é usado na oração condicional. A forma correta seria "If it rains tomorrow, we will have a picnic."

D) If they will come on time, we could start the meeting.

Errado. "Will come" não é adequado para a primeira condicional, e "could start" não está corretamente alinhado com o uso da primeira condicional. A forma correta seria "If they come on time, we can start the meeting."

E) If I see him, I will tell him about the news.

Correto. Esta opção segue a estrutura correta da primeira condicional: "If + present simple (see), + will + base form of the verb (tell)."

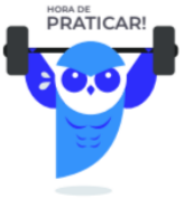

Gabarito Letra E

QUESTIONÁRIO DE REVISÃO E APERFEIÇOAMENTO

Nesta seção, apresentamos e comentamos uma amostra de questões objetivas selecionadas estrategicamente: são questões com nível de dificuldade semelhante ao que você deve esperar para a sua prova e que, em conjunto, abordam os principais pontos do assunto.

A ideia, aqui, não é que você fixe o conteúdo por meio de uma bateria extensa de questões, mas que você faça uma boa revisão global do assunto a partir de, relativamente, poucas questões.

Perguntas

1. Escreva uma frase utilizando o direct speech.

2. Escreva uma frase utilizando o indirect speech/reported speech.

3. Escreva uma frase utilizando a voz ativa.

4. Escreva uma frase utilizando a voz passiva.

Perguntas com respostas

1. Escreva uma frase utilizando o direct speech

R: She said, “I study every day because I want to be approved”.

2 - Escreva uma frase utilizando o indirect speech/reported speech

R: He/She said that he/she wanted a new car.

3. Escreva uma frase utilizando a voz ativa

R: Pedro washes the car

4. Escreva uma frase utilizando a voz passiva.

R: The garage was cleaned this morning by me.

11225354498 - Maria Vitória Gonçalves Vieira

Lista de Questões Estratégicas

01. (FCC/2015 – SEDU-ES) A questão refere-se a conhecimentos linguísticos da língua inglesa. "Grandma takes us to school everyday". A reescrita correta dessa frase na voz passiva é

(A) The school is taken by grandma everyday.

(B) The school is taken up by us and grandma everyday.

(C) We're taking grandma to school everyday.

(D) The school is taking us to grandma everyday.

(E) We're taken to school by grandma everyday.

02. (CEBRASPE/2016 – SEDF)

When Harold Palmer (1877 – 1949) first began as a1 teacher of English as a foreign language in 1902 at a language school in Verviers, Belgium run on Berlitz lines, the main attraction of the job was that it allowed him to live abroad in a4 French-speaking country. In all likelihood he would eventually come back home in a few years and "settle down", like many others before and since. Palmer, however, stayed on, opened his own school, and began to think seriously about the work he was doing and how it could be improved. When he died forty-seven years later, English language teaching was well on10 its way to a professionhood which he, more than any other single individual, had helped to bring about.

A. P. R. Howatt and H. G. Widdowson. A history of English language teaching. 2 nd ed. Oxford University Press, 2004, p. 264 (adapted).

Judge the following item, concerning the ideas and linguistic aspects of text.

As in the phrase "a language school in Verviers, Belgium run on Berlitz lines" (l. 2 and 3), the relative pronoun and the auxiliary verb which forms the passive voice have been omitted, the excerpt "run on Berlitz lines" could be correctly replaced with which was run on Berlitz lines.

( ) Errado

03. (INSTITUTO AOCP/2008 – PREFEITURA MUNICIPAL DE TIMBÓ – SC) Assinale a alternativa que apresenta a forma correta da voz passiva da frase "Europe is debating the growing prominence of English."

A) The growing prominence of English is been debating by Europe.

B) The growing prominence of English was debated by Europe.

11225354498 - Maria Vitória Gonçalves Vieira

C) The growing prominence of English has been debating by Europe.

D) The growing prominence of English have been debating by Europe.

04. (FCC/2009 – SEPLADR-SP)

Too often, America educates its children for the challenges they will face in the global, knowledgebased 21st century using 20th-century technology and methodology. Other nations provide students with laptop computers, fast broadband connections, and state-of-the-art digital applications, infusing technology and innovation throughout their educational experiences. In contrast, the Bush Administration has proposed in its FY09 budget eliminating all funding for the Enhancing Education Through Technology program, designed to improve student achievement and boost students' digital literacy through the use of technology in schools.

The competitiveness and vibrancy of our economy, as well as our homeland security, depend on our ability to maintain a highly-skilled workforce. We must educate new generations of digitally literate citizens to ensure they are able to compete successfully in today's global workforce and participate in our increasingly knowledge-based society.

Our education system, KK ....., is failing to meet this challenge. In America's schools, Internet access is often far too slow, with insufficient bandwidth for online learning, collaborative work, video conferencing, and other educational applications. In some cases, schools still use dial-up Internet access. School technology is often antiquated, in short supply, and insufficiently supported. Distance learning over broadband is a distant dream. Online curricula is offline. Teachers are insufficiently trained to use technology in their classrooms, so that whatever technology is available to them languishes. Students [TO TEACH] the basic 3 Rs, as required by the No Child Left Behind Act, but not the digital skills that will enable them to translate those 3 Rs [Reading, Writing and ´Rithmetic] into success in today's Information Age. The bottom line is that rather than "no child left behind," the failure to fully infuse technology and broadband throughout the education system has left behind many of America's children.

The new Administration should include in its National Broadband Strategy initiatives to promote the rapid adoption of technology and broadband throughout the classroom. It should also include initiatives to advance online learning and "digital excellence" training. In this way, the new Administration will not only stimulate broadband supply and demand, but deliver significant improvements in our nation's ability to educate its children.

(Adapted from http://www.benton.org/initiatives/broadband_benefits/action_plan/education)

A forma correta de [TO TEACH] no texto é

(A) teach.
(B) teaches.
(C) taught.
(D) are taught.
(E) are teaching.

05. (VUNESP/2019 – PREFEITURA MUNICIPAL DE DOIS CÓRREGOS – SP)

11225354498 - Maria Vitória Gonçalves Vieira

Two Aug. 31 articles painted different pictures of whether the District of Columbia is a safe place to live. "D.C. rises to No. 7 in world's safest cities index, up from 23rd two years ago" mentions the results of the latest report by the British organization Economist Intelligence Unit ranking 60 cities using an index of 57 indicators, including digital security, access to quality health care and disaster preparedness.

"One dead, six wounded following overnight and early-morning violence" told a different story. A 16-year-old boy was found shot dead. In five other incidents, "no one suffered serious injuries, but all of the victims were taken to hospitals." All involved gunshot. A man and a woman were hit by bullets fired from a passing car. Police found a man with gunshot wounds. A woman eating dinner at her dining room table heard several shots, then discovered a bullet had hit her shoulder. A man passing a small group of men was shot in the back. A woman was hurt in the ribs by a man trying to rob her.

On the issue of whether the District is safe, the situation can look very different from an economist's downtown suite than from a city street on a hot summer night.

Karl Polzer, Falls Church.

(www.thewashingtonpost.com. 04.09.2019. Adaptado)

Assinale a alternativa em que o trecho encontra-se na voz ativa.

(A) A 16-year-old boy was found shot dead.
(B) All of the victims were taken to hospital.
(C) A man and a woman were hit by bullets fired from a passing car.
(D) A bullet had hurt the woman's shoulder.
(E) A woman was hurt in the ribs by a man trying to rob her.

The teacher told the coordinator that students _____ the entire summer texting. She explained that it _____ a while to wean them. The correct verb tenses to complete the sentences are respectively

A) was spending – would take.
B) spent – took.
C) had spent – takes.
D) have spent – has taken.

7. (2022 - FUNDATEC - Prefeitura Municipal de Restinga Sêca (RS) - Professor de Língua Inglesa (Pref Restinga Sêca/RS))

What is the internet of things?

In the internet of things (IoT), a "thing" can be __ person with a heart monitor implant, __ animal with a biochip transponder, __ car with sensors to alert when tire pressure is low, or any object that is able to transfer data. IoT is __ system of interrelated "things" that are provided with __ ability to transfer information over a network without requiring human interaction. It uses artificial intelligence and machine learning to improve data collecting, and sometimes devices can even communicate with each other and then act on __ information they get.

In agriculture, IoT-based smart farming systems can help monitor light, temperature, humidity, and soil moisture of crop fields; automatize irrigation systems, and collect data on rainfall and soil content. The infrastructure industry can benefit from sensors that monitor events or changes within structural buildings and bridges. To healthcare, IoT offers the ability to monitor patients more closely using an analysis of the data that's generated.

Smart homes are equipped with smart thermostats, appliances, and connected heating, lighting, and electronic devices that can be controlled remotely via smartphones. Smart buildings can reduce energy costs using sensors that detect how many occupants are in a room and then adjust the temperature automatically. Wearable devices with sensors can be used for public safety, for example, by providing optimized routes to a location where there is an emergency, or by tracking firefighters' vital signs at life-threatening sites.

Obviously, there are some disadvantages, too, and the list includes the risk that confidential information is stolen by hackers, and the difficulty for devices from different manufacturers to communicate with each other since there's no international standard of compatibility for IoT. Companies may have to deal with massive numbers, and collecting and managing the data from all those devices will be challenging. Ultimately, if there's a bug in the system, it's likely that every connected device will become corrupted.

"Pros and cons in perspective, Matthew Evans, the IoT program head at techUK, says that In the short term, we know [IoT] will impact on anything where there is a high cost of not intervening, Evans said. ""And it'll be for simpler day-to-day issues – like finding a car parking space in busy areas, linking up your home entertainment system, and using your fridge webcam to check if you need more milk on the way home.""

(Available in: from: https://www.techtarget.com/iotagenda/definition/Internet-of-Things-IoT https://www.wired.co.uk/article/internet-of-things-what-is-explained-iot – text especially adapted for this test).

11225354498 - Maria Vitória Gonçalves Vieira

Consider the statements about the excerpt “If there's a bug in the system, it's likely that every connected device will become corrupted”:

I. If we change the order to “It's likely that every connected device will become corrupted if there's a bug in the system” the sentence becomes ungrammatical.

II. The word “If” can be substituted by “In case” with no significative changes in meaning.

III. This is a first conditional sentence, which means there is a high probability that this really happens.

Which statements are correct?

A) Only I.
B) Only II.
C) Only III.
D) Only II and III.
E) I, II, and III.

8. (2022 - CESGRANRIO - Eletrobrás Termonuclear - Especialista em Proteção Radiológica (ELETRONUCLEAR))

U.S. domestic air conditioning use could exceed electric capacity in next decade due to climate change

1 - Climate change will provoke an increase in summer air conditioning use in the United States that will probably cause prolonged blackouts during peak summer heat if states do not expand capacity or improve efficiency, according to a new study of domestic-level demand.

2 - Human emissions have put the global climate on a trajectory to exceed 1.5 degrees Celsius of warming by the early 2030s, the IPCC reported in its 2021 evaluation. Without significant alleviation, global temperatures will probably exceed the 2.0-degree Celsius limit by the end of the century.

3 - Previous research has examined the impacts of higher future temperatures on annual electricity consumption for specific cities or states. The new study is the first to project residential air conditioning demand on a domestic basis at a wide scale. It incorporates observed and predicted air temperature and heat, humidity and discomfort indices with air conditioning use by statistically representative domiciles across the contiguous United States, collected by the U.S. Energy Information Administration (EIA) in 2005- 2019.

4 - “It’s a pretty clear warning to all of us that we can’t keep doing what we are doing or our energy system will fail completely in the next few decades, simply because of the summertime air conditioning,” said Susanne Benz, a geographer and climate scientist at Dalhousie University in Halifax, Nova Scotia.

11225354498 - Maria Vitória Gonçalves Vieira

5 - The heaviest air conditioning use with the greatest risk for overcharging the transmission lines comes during heat waves, which also present the highest risk to health. Electricity generation tends to be below peak during heat waves as well, reducing capacity to even lower levels, said Renee Obringer, an environmental engineer at Penn State University. Without enough capacity to satisfy demand, energy companies may have to adopt systematic blackouts during heat waves to avoid network failure, like California's energy organizations did in August 2020 during an extended period of record heat sometimes topping 117 degrees Fahrenheit. "We've seen this in California already -- state power companies had to institute blackouts because they couldn't provide the needed electricity," Obringer said. The state attributed 599 deaths to the heat, but the true number may have been closer to 3,900.

6 - The new study predicted the largest increases in kilowatt-hours of electricity demand in the already hot south and southwest. If all Arizona houses were to increase air conditioning use by the estimated 6% needed at 1.5 degrees Celsius of global warming, for example, amounting to 30 kilowatt-hours per month, this would place an additional 54.5 million kilowatthours of demand on the electrical network monthly.

Available at: www.sciencedaily.com/releases/2022/02/ 220204093124.htm. Retrieved on: Feb. 9, 2022. Adapted.

In the fragment of paragraph 6 "If all Arizona houses were to increase air conditioning use", if signals a(n)

A) condition

10. (2020 - IBADE - Prefeitura Municipal de Linhares (ES) - Professor Educação Básica II Inglês (Pref Linhares/ES))

An interview with Paolo Kwan, 20, from Hong Kong, who is improving his English while studying Business Administration at Sierra College in northern California.

WHY DID YOU DECIDE TO STUDY IN THE USA?

It provides a nice education in a beautiful country. When I was younger I used to watch American movies and I wanted to visit the United States. They always talked about the American dream, and I wanted to come and see it.

HOW DID YOU CHOOSE YOUR INTENSIVE ENGLISH PROGRAM?

Sierra College is one of the biggest community colleges in northern California. It is in a quiet location but has a beautiful campus. The college has a good business program. I can study for two years at Sierra College and then two years at my transfer school to earn my degree.

WHAT DO YOU LIKE BEST?

I also enjoy the quality of the teaching at the college. There is a writing center where I can go at any time. The teachers can make suggestions to improve my essay, regarding grammar and my vocabulary. At the Math Center, they can explain in detail the problems. WHAT DO YOU MISS MOST? I miss the food and also my family.

WHAT WAS YOUR BIGGEST SURPRISE?

I was surprised by the cultural difference. The taste and style of food is very different. The amount of food is a lot larger. A small portion in the USA is a large portion in Hong Kong. When people from America find out that I am from another country they ask a lot of questions. They are very interested in you and finding out about Hong Kong.

... YOUR BIGGEST DISAPPOINTMENT?

I have not had any since I came here.

HOW HAVE YOU HANDLED:

... LANGUAGE DIFFERENCES?

It is important not to be shy, as that does not help you when you are trying to improve your language. I make sure that I study, practice and speak as often as I can—that is the only way to improve.

... FINANCES?

I am being supported by my family.

11225354498 - Maria Vitória Gonçalves Vieira

... ADJUSTING TO A DIFFERENT EDUCATIONAL SYSTEM?

The American system is much more open. In Hong Kong you just learn what the teacher writes on the board. In America, you discuss the issues and focus more on ideas.

WHAT ARE YOUR ACTIVITIES?

I am interested in traveling around the USA. I have been to San Francisco, which you can reach by train from Sierra College. In my free time I go out with friends.

HOW EASY OR DIFFICULT IS MAKING FRIENDS?

It has not been that hard to make friends in the USA. Other people at the college are friendly and want to make friends as well.

HOW IS YOUR U.S. EDUCATION RELEVANT TO YOUR PERSONAL GOALS AND TO THE NEEDS OF YOUR COUNTRY?

I think that the U.S. education system will provide me with good resources and skills to be able to support myself in order to get hired in my own country.

WHAT IS YOUR ADVICE TO OTHER STUDENTS?

An awesome life experience is waiting for you in the future. You will learn so much more than you think. Nothing is impossible, so go ahead and give it a try.

In the interview Paolo said: "I have been to San Francisco". If we rewrite this sentence in reported speech, we will get:

A) Paolo told that he has been to San Francisco.
B) Paolo said them that he has been to San Francisco.
C) Paolo told to them that he had been to San Francisco.
D) Paolo told them that he went to San Francisco.
E) Paolo said that he had been to San Francisco.

ESSA LEI TODO MUNDO CONHECE:
PIRATARIA É CRIME.

Mas é sempre bom revisar o porquê e como você pode ser prejudicado com essa prática.

1. 

Professor investe seu tempo para elaborar os cursos e o site os coloca à venda.

2. 

Pirata divulga ilicitamente (grupos de rateio), utilizando-se do anonimato, nomes falsos ou laranjas (geralmente o pirata se anuncia como formador de "grupos solidários" de rateio que não visam lucro).

3. 

Pirata cria alunos fake praticando falsidade ideológica, comprando cursos do site em nome de pessoas aleatórias (usando nome, CPF, endereço e telefone de terceiros sem autorização).

4. 

Pirata compra, muitas vezes, clonando cartões de crédito (por vezes o sistema anti-fraude não consegue identificar o golpe a tempo).

5. 

Pirata fere os Termos de Uso, adultera as aulas e retira a identificação dos arquivos PDF (justamente porque a atividade é ilegal e ele não quer que seus fakes sejam identificados).

6. 

Pirata revende as aulas protegidas por direitos autorais, praticando concorrência desleal e em flagrante desrespeito à Lei de Direitos Autorais (Lei 9.610/98).

7. 

Concurseiro(a) desinformado participa de rateio, achando que nada disso está acontecendo e esperando se tornar servidor público para exigir o cumprimento das leis.

8. 

O professor que elaborou o curso não ganha nada, o site não recebe nada, e a pessoa que praticou todos os ilícitos anteriores (pirata) fica com o lucro.

Deixando de lado esse mar de sujeira, aproveitamos para agradecer a todos que adquirem os cursos honestamente e permitem que o site continue existindo.
